ELECTION

FOR	AGAINST
1. The proposed changes are necessary to ensure the accuracy and reliability of the data. 2. The changes will help to streamline the process and reduce the time and cost of data collection. 3. The changes are in line with the latest industry standards and best practices. 4. The changes will improve the overall quality of the data and make it more useful for analysis. 5. The changes are a necessary step towards achieving our goal of data-driven decision making.	1. The proposed changes are too radical and could lead to significant data loss or corruption. 2. The changes are not fully understood and could have unintended consequences. 3. The changes are not supported by the majority of the stakeholders involved. 4. The changes are not necessary and could be achieved through other means. 5. The changes are a distraction from the more important issues at hand.
