Primary Election – March 19, 2024

Overview

The Ohio 2024 Presidential Primary Election will take place on Tuesday, March 19, 2024. The Ohio Primary is a semi-open primary which means that the voter will need to request a party's specific ballot or a non-partisan ballot when it is available. A special election can be held on the same day. The Primary Election allows voters to determine their party's candidates for the General Election.

During a Primary Election the voter will be asked by the Precinct Election Official (PEO) what style of ballot they would like to vote along with the usual request for their name, current address, and form of identification.

(R.C. 3501.01 (A)-(D))(3050.18) (R.C. 3511.16; 3505.062)

In some precincts where there are issues on the ballot as well as candidates, voters may choose a issues ballot that will only contain the issues or party candidates.

It is important to note that by requesting a political party's ballot, the voter then becomes affiliated with that political party. This designation cannot be changed until the next Primary Election.

Precinct Election Officials (PEOs) represent both political parties and the Lorain County Board of Elections on Election Day. Precinct Election Officials should treat those they interact with in a professional manner, work efficiently and resolve problems so that voters can vote with ease. PEOs activity should not distract voters from their business at the polls.

Precinct Election Officials Responsibilities and Conduct

Overview

Precinct Election Officials (PEOs) ensure the election is conducted lawfully and are available to assist voters in a courteous and respectful manner.

One Precinct Election Official will be selected to serve as the Voting Location Manager (VLM) for each Polling Location. They are responsible for overseeing the election process, including overseeing opening and closing of the polling place, and transporting of ballots and voting materials to the Board of Elections after the polls close. They will work closely with the Assistant Voting Location Manager (AVLM), who will be of the opposite political party. The VLM or AVLM will be present in the Polling Location at all times.

Precinct Election Officials work as a team to conduct an election at their assigned Polling Location. They must uphold election law. They also must prevent and stop any actions or attempts to obstruct, intimidate or interfere with any elector (registered voter) when checking-in or voting. They must protect official observers against being bothered or harmed in the performance of their duties. Ohio law requires that Precinct Election Officials must act in such a way as to prevent riots, violence, tumult or disorder. They are not permitted to discuss their political views or opinions with other Precinct Election Officials or voters while in the Polling Location throughout the Election Day. (R.C.3501.33; 3501.22)

Precinct Election Official General Responsibilities

- We encourage you to go to your Polling Location in advance of Election Day so you know how to get there, park, and how to enter the building;
- On Election Day, arrive at the Polling Location no later than 5:30 a.m.;
- Take and sign the Precinct Election Officials' Oath of Office, administered by the Voting Location Manager before opening at 6:30am (R.C. 3501.31);
- Sign the Oath/Payroll sheet;
- Open/ Set up all equipment as assigned;
- Conduct the election properly and lawfully;
- Check voter ID and check in voters;
- Make sure voters are correctly issued regular or provisional ballots for the correct precinct;
- Direct voters to the correct Polling Location location (R.C. 3505.181(C (1));
- Close all equipment and leave the Polling Location when dismissed by the Voting Location Manager and all closing duties have been completed;
- Sanitize equipment as directed using alcohol products;
- Perform any other duties as assigned by the Board of Elections.

Challenging Voters

IMPORTANT-The Voting Location Manager or Assistant Voting Location Manager must notify the Board of Elections before completing any challenge paperwork (10-U or 10-W).

On Election Day, voters may be challenged at the check-in table ONLY by a Precinct Election Official for the following reasons:

- The voter is not a resident of the precinct;
- The voter is not a resident of Ohio;
- The voter is not a U.S. citizen; or
- The voter is not of legal voting age.

If challenged by a Precinct Election Official for one of the four reasons listed, the prospective voter should complete the Affidavit-Oath-Examination of Person Challenged (Form 10-U) (Located in Manager's Binder.) The Board of Elections must be notified. The completed form 10-U will be placed in the Completed Forms envelope and the challenge must be documented in the Incident Log Book.

If the voter completes the Form 10-U and a majority of the Precinct Election Officials are able to determine that the voter is eligible to cast a ballot, the voter must be given a regular ballot. If the voter refuses to complete the Form 10-U, the voter must vote a provisional ballot; note this in the Provisional Log.

If a majority of the Precinct Election Officials are unable to determine the person's eligibility to cast a ballot, then provide a provisional ballot to the voter. (see Provisional Ballot section)

Challenging a Voter's Party or Ballot Type

In rare instances a PEO may believe that an elector is not voting ethically and therefore challenge the voter's party affiliation. If a PEO has personal knowledge that a voter is not affiliated with or a member of the party whose ballot they have requested they may challenge the voter and ask the voter to complete a Statement of Personal Affiliation form (10-W) located in the manager's binder. If the challenged voter completes the 10-W form, then they may be given the party ballot they have requested. If the voter refuses to complete the 10-W form, then they MUST be given a provisional ballot.

17 year old Voters

A 17-year-old elector who will be 18 years old on or before the next General Election, may vote on the nominations of candidates in the Primary Election. They must register to vote according to the law prior to the Election Day. The 17-year-old may NOT vote on any question or issue on the primary ballot, such as a tax levy, or charter amendment.

Typically the Polling Location will not have provisional ballots specifically for a 17 year old voter so they will be issued a ballot according to the party that they have requested and instructed to only vote on the candidates on the ballot. They should never be issued a issues only ballot.

17-year-old voters will be identified in the Poll Pad with a message stating "17 Year Old Voter". If the voter selects the Non-Partisan ballot the Ballot Style will display as UNAVAILABLE on the Poll Worker Confirmation screen.

IMPORTANT: Do NOT issue the ballot- select "Start Over" and process the voter again ensuring they only select a party ballot.

Declared Party: **ISSUES ONLY**
Ballot Style: **UNAVAILABLE**
Voter Status Reason: **17 Year Old voter**

In the event of a 17yr old requests an Optional Paper Ballot or if the BOE instructs that the 17yr old cannot be given a regular paper ballot to vote on the ExpressVote unit and must vote the Optional Paper Ballot, then the Optional Paper Ballot will not be cast in the DS200, but instead it will be placed in the Voted Provisional Ballot Bag.

Precinct Election Official Conduct at Polling Locations

The actions and overall attitude of a PEO sets the tone for the Polling Location and serves as an example for voters. You represent the voting process to the voters. Treat everyone professionally with courtesy and respect for a smooth Election Day process.

Note: You should dress professionally. You represent the election process, so clean, fresh, and neat attire is expected.

The Polling Location

Overview

The Poll Pad and Help Desk tables, Poll Pad printers, ExpressVote Units and DS200 Scanners, will already be set up when you arrive at the Polling Location. The tables and ExpressVote Units will be positioned so that voters can easily move through the Polling Location and can cast their ballots in private. The Voting Location Manager and Assistant Manager will monitor all activity around the voting equipment. The managers will be provided with a detailed diagram and picture of your individual Polling Location and confirm that it is properly arranged.

IMPORTANT- Do not change the set up of your Polling Location unless advised to do so by the Board of Elections.

Prior to Opening the Polling Location for Voters

On Election Day, before the polls open at 6:30am, Precinct Election Official (PEO) teams will need to work quickly and efficiently to complete all tasks before voters arrive to vote. All PEOs will be sworn in by the VLM prior to opening the Polling Location. Polls officially open at 6:30am, no one is permitted before polls open.

If for any reason you need to speak with the Board of Elections (BOE), contact the VLM. The VLM or AVLMM should call the BOE if there is any occurrence or issue that could affect the operation of the Polling Location or outcome of the Election and with any other questions. DO NOT text the BOE regarding any occurrences or issues. All incidents and issues should be documented in the Incident Log. The BOE will call the VLM directly if there are any issues which potentially could affect the operation of the Polling Location.

The Voter Assistants and Help Desk Officials (note: not all locations are staffed with all positions) will work in teams to set up ExpressVote Units and DS200 Scanners. They will follow opening procedures to print reports as instructed.

The Poll Pad Table Officials will set up and open the Poll Pads and get the required items posted inside and outside the Polling Location as indicated.

Before voters can cast ballots, the PEOs must activate the equipment, verify the polling location/ precinct(s), verify correct ballots for the precinct, print zero total reports, and assist with completing reports. The Polling Location must be open for voting by 6:30am.

Preparing for Special Situations

Make sure all necessary forms and materials are available, including:

- Voter Registration Application Form (Found in the Provisional Supply Envelope);
- Challenge Forms (10-U & 10-W), used only by Precinct Election Officials, not by observers (Found in the back of the Manager's Book)

Polling Location Hours Of Operation

- Polling Locations officially open at 6:30am. The Voting Location Manager will make the official announcement;
- Polling Locations will close at 7:30pm; the VLM will give anyone who is in line by 7:30pm a green "Authority to Vote" slip, found in the manager's supplies. The VLM will announce "The polls are closed. All those in line will be permitted to vote." Once all voters have finished voting and exited, the VLM will make the official announcement that the Polling Location is closed;
- Under some extreme conditions, the courts may make a determination to keep the polls open beyond 7:30pm. The VLM will be made aware of this by the Board of Elections, and will instruct all PEOs the next steps to be taken (see Court Orders in the Closing the Polls section).

Access to Polling Locations

Access to Polling Locations is limited to individuals that are voting, assisting voters, checking the posted voter lists, or those that are properly credentialed.

The following people are allowed in the Polling Location

- An elections official;
- A Law Enforcement Officer;
- A person reviewing the 6:30am blue Register of Voters, listing all Registered Voters in the Precincts voting within the Polling Location;
- A person may also view the Voter Registration Lists and the Voted List/Checkins List) that are posted at 11am or 4pm, documenting the voters that have voted up to that point in the day. These lists are able to be viewed at any time throughout the day;
- A voter (including the voter's children who are of non-voting age when accompanied by the voter);
- A person assisting another person to vote. This assistance could be for individuals needing assistance translating the ballot or other language needs (The Precinct Election Official must be notified by the voter as to who they would like to have assist them);
- An Observer bearing a Certificate of Appointment from the BOE; or

- Members of the media (Notify the BOE)

Note: Observers and Members of the Media should only speak with the Voting Location Manager or Assistant Manager.

Persons Checking the Register of Voters and Check-In List

- Any person may enter the polling location during voting hours, for the sole purpose of checking and taking notes from the Register of Voters (blue) that is posted at 6:30am and the Voted Lists/ Checkins posted at 11am and 4pm. Such persons may not wear any electioneering clothes (anything that may be construed as campaigning for or against any candidate or issue on the ballot) or accessories, and may not interfere with or disrupt the election;
- Such persons may not take the posted Register of Voters and/or Check-In Lists, and election officials should be careful to place the list in a manner that it cannot be removed unnoticed by an elections official.

Persons Assisting Voters:

- A voter may ask for assistance in marking the ballot because of blindness, disability or illiteracy. Voters who require assistance may have a person of their choice or two PEOs – each from a different political party – assist them. **The elector may choose anyone he or she wants to provide the assistance, other than the elector’s employer, an agent of the elector’s employer, or an officer or agent of the elector’s union, if any, or any candidate whose name appears on the ballot (R.C. 3505.24).**
- Prior to Election Day a voter may designate an attorney-in- fact, who is a person eligible to sign all election-related documents on behalf of the voter. Such signing must be done in the voter’s presence. The attorney-in-fact designation is specific to Ohio election law and not a general power of attorney. If such an attorney-in- fact is on file with the Board of Elections, it is required to be noted in the Signature Poll Book or on the Poll List. There are currently no voters that have elected to file a designate as an attorney-in- fact in Lorain County.

Poll Observers:

Members of the Media:

- The VLM should notify the Board of Elections immediately when a member of the media arrives at their Polling Location. You are there to run the Polling Location, so direct them to the BOE if they request an interview from you.
- Representatives of the media are permitted inside the Polling Location.

The First Amendment of the U.S. Constitution has been interpreted as allowing this access to media. The presence or activities of the media may not interfere with Precinct Election Officials' activities, interfere with the election or voters as voters exercise their right to vote, may not intimidate voters or jeopardize the secrecy of a voter's ballot;

- Members of the media will have a Board of Elections issued Identification Badge (see Appendix). If a member of the media arrives without this identification allow them access to the Polling Location;
- The media must respect a voter's right to privacy by requesting the voter's permission prior to recording the voter or the voter's actions while in or about the Polling Location.

Individuals NOT allowed in the Polling Location:

- Candidates or campaign workers who are campaigning or electioneering;
- A person(s) collecting signatures for a petition; or
- Those individuals not voting, and loitering in the Polling Location (R.C. 3501.35).

Pollsters:

- Pollsters conducting exit polling are not allowed inside the Polling Location. They are permitted to be outside the Polling Location – even within 100 feet of the entrance – but they should not interfere with or disrupt the election, or otherwise violate the law. Further, persons conducting exit polls at a Polling Location may not wear anything that may be construed as campaigning for or against any candidate or issue on the ballot. (R.C. 3501.30)

Electioneering, Campaigning and Distributing Food Inside a Polling Location:

Campaigning, displaying campaign material, or distributing food inside of the neutral zone of a polling location is prohibited. The Polling Location is a neutral zone. Electioneering or campaigning is part of the political process, but is prohibited within 100 of the entrance to a Polling Location or within 10' of voters waiting in line, if the line extends past the 100'. Voters must be free to make their choices without pressure from candidates, campaigns, PEOs, or fellow voters, including friends and family.

PEOs should not discuss the candidates or election issues among themselves or with voters. Voters, themselves, should not attempt to promote or oppose a candidate or ballot issue while in the polling location.

Candidates, campaign workers, and other persons entering the polling location must remove or cover all campaign garb and paraphernalia before entering. A registered voter who refuses to remove or cover up campaign garb or paraphernalia **must still be allowed to vote**. However, you must report any such incident to the Board of Elections.

Ohio law prohibits anyone from procuring or offering “money or other valuable thing to or for the use of another, with the intent that it or part thereof shall be used to induce such person to vote or to refrain from voting. Food, discounts, and other such inducements are things of value for purposes of the election law statutes on bribery;. (R.C.3599.01)

Loitering

Once an individual has completed the voting process they must leave the Vote Center. Loitering is prohibited in every voting location. If the individual refuses to leave, have the Voting Location Manager contact the Board of Elections.

Ohio Revised Code, 3501.35, says in part: Individuals may not...

(1) Loiter, congregate, or engage in any kind of election campaigning within the area between the polling place and the small flags of the United States placed on the thoroughfares and walkways leading to the polling place, and if the line of electors waiting to vote extends beyond those small flags, within ten feet of any elector in that line;

(2) In any manner hinder or delay an elector in reaching or leaving the place fixed for casting the elector’s ballot.

Collecting Signatures Inside a Polling Location

Groups may station persons outside of a Polling Location to gather signatures on a petition. Such persons are not permitted to collect signatures inside of a polling location or within the “neutral zone” outside of the Polling Location (within the 100’ area). However, there is no prohibition against collecting signatures outside the 100’ neutral zone.

Security at the Polling Location

The VLM and AVL, will be primarily responsible for ensuring security at the Polling Location. All other PEOs must also be vigilant to help in assuring that the Polling Location remains safe, undisturbed, and free from tampering.

If at any time there is a threatening or potentially dangerous situation that arises the Board of Elections and the appropriate authorities should be contacted immediately.

All Precinct Election Officials:

- Keep a record of all voters processed, and all ballots issued, including provisional ballots and soiled or defaced ballots using the Poll Pad books, Poll Pad Closing Reports and Ballot Accounting Sheets;
- Document any incident that may effect the election results, such as: machine problems, voters who were processed, but left without voting, delays in opening, and any other incidents that could have an impact on the election – especially on tallying the votes or reconciling voting material, equipment, or supplies. Be sure to notify the managers of these events. Incidents must be recorded in the red Incident Log;
- Report any suspicious activity in or around the voting machines to the Board of Elections;
- Fully and legibly complete all forms.

Managers:

- Inspect ExpressVote Units and DS200 Scanners for physical damage and check tamper evident seals, to ensure the seals have not been changed since the equipment or supplies left the Board of Elections; a team will be assigned to review the equipment using the Equipment Custody sheet found in the ExpressVote printer bag at the Help Desk;
- Maintain control over all ExpressVote Units, DS200 Scanners and all other materials and supplies;
- Make sure chain of custody procedures for voting materials are followed; Sign the Equipment Custody sheet;

- 
- Ensure that the security panel on every ExpressVote Unit and DS200 Scanner is protected from unauthorized use or tampering before the start of voting and throughout Election Day; and
 - Return the materials to the Board of Elections office or other assigned location Election Night (with a member of the opposite political party).

Write-In Candidates List

The Board of Elections will provide you with a list of names of candidates and offices that are officially eligible as write-in candidates. These candidates' names do not appear on the ballot, whether printed or electronic, but voters may write in names from this list if they choose. The ExpressVote Unit allows for a write in option. When selected the screen will display a key pad.

The write in list is **not posted** but must be shown to voters if they request to see it. The list is in the AVL's supplies and kept at the Help Desk.

Record Keeping While the Polls Are Open

PEOs must document events at the Polling Location, especially events that might affect the election results. The VLM will use the red Incident Log and any other election forms as needed. Documentation should include the complete and accurate story of what transpired at the Polling Location on Election Day. For example, any discrepancies between the number of voters processed and the number of ballots cast.

These records are used by the Board of Elections to resolve any issues that arise during the current election and to plan for future elections, the more complete, accurate and descriptive the information the more useful it is.

Posting of Official Voter Registration Lists

The blue "Register of Voters" found in the "Items to be Posted" envelope will be posted by 6:30am, (put the lists on a shelf or table near the entrance or tape them to the Polling Location wall);

- The Summary Report -Check-Ins list- a copy of all voters that have been checked in to vote from 6:30am to 11:00am will be printed at 11am. Post it next to the Registry of Voters at the Polling Location. This list will remain posted throughout the day.
- A final copy of the report of all voters that have voted by 4:00 pm will be printed at 4:00pm and posted in the same location.
- The instructions for printing the lists are located in the Election Day procedures in the manager's binders.

The lists may be viewed by anyone entering the Polling Location, after posting

throughout the day. The lists may not be removed from the Polling Location. The lists should be placed in the orange report pouch at closing. The Blue Registry of Voters will be returned in the Items to be Posted envelope.

Processing Voters

When the Polling Location is open, voters will be directed to the Poll Pad Tables and receive a stylus to use on the voting equipment if they would like one. The Poll Pad officials will qualify each voter, have the voter sign the Poll Pad using and issue a Ballot card.

Any Voter not found in the Poll Pad for the Polling Location will be taken to the Help Desk to determine the appropriate course of action for the voter.

Officially Closing the Polls

At 7:30 pm, the official closing time, the Voting Location Manager should loudly declare, “The polls are closed! All those in line will be permitted to vote.”

- To accommodate voters in line, move the line inside the closed and secured door of the polling location, if possible; or
- Distribute to every voter in line by 7:30pm a green “Authority to Vote” slip. The slips are passed out starting at the end of the line to prevent anyone from voting who arrives after 7:30pm.

Court Orders

If there is a court order to keep your Polling Location open past 7:30pm, you will need to know who the last person in line was at 7:30pm. Using the green Authority to Vote slips starting with the last person in line distribute the slips.

- Voters who were already in line at 7:30pm get to vote a regular ballot;
- All voters who arrive at the Polling Location to vote between 7:30pm and the court ordered closing of the Polling Location, must vote a Provisional Ballot, they may not vote on the voting units;
- Keep these ballots separate from other paper ballots voted during regular voting hours, in case the court decision is later overturned.
- Note on the Provisional Ballot Affirmation Envelope (Form 2-B) or Optional Paper Ballot, that it was cast after 7:30pm per court order. Affix the pink label printed “This ballot was cast after 7:30pm pursuant to a court order to remain open” on the Provisional Envelope. All court ordered supplies are in the “Court Ordered Envelope” located in the red Emergency Procedures Bag.

After the Voters have left the Polling Location

Transportation of Ballots

The ballots and required voting materials and supplies are to be transported to the BOE or designate location by the VLM and AVLML with a PEO, employee, or appointee of the board to whom an oath was given and who is a member of a different political party than the VLM or AVLML.;

The AVLML, with a member of the opposite political party, will be the first person to leave the Polling Location. They will transport all of the Memory Sticks, the yellow bags with the unused provisional and regular paper ballots, the yellow provisional Voted Ballot bag(s) with all voted ballots, the burgundy bag containing the voted/cast ballots and the green supply bag with the AVLML binder to their designated drop off location. Ensure the bags are securely sealed. Complete the “DS200 Scanner Closing Audit Sheet” found in the back of the AVLML binder.

IMPORTANT- No Precinct Election Officials are permitted to leave a Polling Location until all Memory Sticks have been accounted for and sealed in the clear Memory Stick bag.

All other Precinct Election Officials stay with the VLM to complete closing. No PEOs are to leave the Polling Location until dismissed by the manager. The VLM will leave with all remaining election supplies and return them to the designated drop off location with a member of the opposite political party. A white rectangular box with rounded corners is centered within the large star graphic. It contains 15 horizontal lines for writing notes.

Voting Process Summary

The Poll Pad Table officials will process each voter using the steps outlined in the Poll Pad section of the manual. It is important to note that each voter should be treated uniformly, fairly, and professionally. Some voters may require special assistance or accommodation in processing and Precinct Election Officials should follow these guidelines to assist the voter.

Voters Requiring Special Assistance

Generally, the Poll Pad Table workers, VLM and AVLMM will identify voters that require assistance. When identified, the Voter Assistants or members of the management team representing each political party will assist the voter in a courteous and respectful manner. It is our job to help every voter to the best of our ability. Voters may elect to bring in assistance of their own. Ask the voter what kind of assistance they would like and assist as requested.

Spanish-English Interpretation

Every voter in Lorain county will have full access to Spanish/Election translation assistance. At any point in the voting process if you identify an individual that you believe might need help of this nature contact the VLM and they will get the voter the assistance they require.

Spanish/English Interpreters are on site in some Polling Locations in the county. Interpreters are also available to voters at the BOE where they will assist voters at the Polling Location either over the phone or come in to the Polling Location directly. The Spanish Language Hotline is 440-326-5924.

There are two types of Interpreters, those that serve solely as Interpreters throughout the day and those that work in a variety of other roles in addition to their interpreting duties.

Stand-alone Interpreters, have as their primary duty, helping individuals through the voting process by translating.

The other Interpreters can serve as a Precinct Election Official in any other role. These Interpreters are able to serve in their regular capacity throughout the day and yet remain available should their interpreting skills be needed.

Voters with Disabilities

Under both state and federal law, Ohio Polling Locations are required to be accessible to people with disabilities. The Help America Vote Act requires that all voters must have the ability to independently cast a private ballot. The Americans with Disabilities Act sets standards for ensuring that people with disabilities have equal access to public services and facilities, including Polling Locations.

NOTE: The best advice for assisting voters with special needs is to treat that person as you would want to be treated and ask the voter what kind of assistance they would like.

As a Precinct Election Official, it is your duty to work with and accommodate voters who have disabilities to find the most suitable method for them to cast a ballot. No person should be denied the right to vote because of mobility, vision, speech, cognitive, intellectual, or hearing impairments. Accommodating people with disabilities is mostly a matter of clear communication and common sense.

Any voter may receive assistance from a person of their choice or two Precinct Election Officials – each from a different political party. The elector may choose anyone he or she wants to provide them assistance, other than the elector’s employer, an agent of the elector’s employer, or an officer or agent of the elector’s union, if any, or any candidate whose name appears on the ballot.

Communicating with Voters with Disabilities Guidelines:

- Always speak directly to the voter with a disability, not to a companion or an interpreter;
- Offering to shake hands when introduced to people with limited hand use or an artificial limb is acceptable;
- Always identify yourself and other Precinct Election Officials when assisting a person who is visually impaired;
- If you offer assistance, wait until the offer is accepted, then listen and wait for instructions;
- Treat adults as adults; never patronize people in wheelchairs by patting them on the shoulder or head, (unless it is necessary to get the attention of a hearing impaired individual referenced later);
- Do not lean or hang on a person’s wheelchair; this device is an extension of their body;
- Never distract a service animal as they are working;
- Listen carefully when speaking with people who have difficulty speaking. Never pretend to understand; instead, repeat what you

- understood and allow the person to respond;
- Place yourself at eye level to speak with someone in a wheelchair;
- It is permissible to tap a person who has a hearing disability on the shoulder or wave your hand to get their attention. Always speak directly to the person, clearly, slowly and expressively, as they may be able to read lips. Speak in a normal tone;
- Relax. Don't be embarrassed if you use common expressions such as "See you later" or "Walk over here" when speaking.

Voters Who Have Speech Impairments:

- A voter who cannot speak may give a name and address simply by providing identification to the assisting PEO, who then reads the name and address out loud;
- If you do not understand something do not pretend that you do; ask the voter to repeat what he or she said and then repeat it back;
- Follow the voter's cues to determine whether speaking, gestures, or writing is the most effective method of communication;
- When speaking, do so calmly, slowly, and directly to the voter. Do not shout. Face the voter at all times as many speech-impaired voters will be able to understand by reading the movement of your lips;
- Ask questions that require only short answers, or a nod of the head;
- Be patient.

Voters Who Are Deaf or Hearing Impaired:

- To get the attention of a voter who is deaf, tap them on the shoulder or wave your hand;
- Identify who you are (i.e., show your name badge);
- Look directly at the voter when communicating;
- When speaking, do so calmly, slowly and directly to the voter. Do not shout or exaggerate. Face the voter at all times;
- Communicate in writing, if necessary;
- If not understood at first, repeat or rephrase your thought.

Voters Who Are Blind or Visually Impaired:

- As soon as you come into contact with the voter, identify yourself and state that you are a Precinct Election Official;
- When giving directions to navigate the voting location, be as specific as possible and indicate obstacles in the path of travel;
- Visual impairment or blindness does not equal a hearing impairment. It is not necessary, or courteous, to raise the volume of your voice;
- If you are asked to guide a person with a visual impairment, offer your arm instead of grabbing theirs.

Interacting with Voters with Mobility Impairments:

- Note if wheelchairs are available at the Polling Location for voters with mobility disabilities and/or who are elderly, have a serious illness, or pregnant and cannot stand for a long period of time;
- Try to sit or kneel at the same level as the person in a wheelchair;
- Ask the voter if he or she wants assistance before trying to help.

Curbside Voting

Curbside voting is the process followed when a person who is physically unable to enter a polling location due to disability can send another person into the polling location to inform Precinct Election Officials of their desire to vote. (Note: if there is a line the person sent in will have to wait in the line before being assisted.)

When you are made aware of the name of a voter who is physically outside of the Polling Location, but is physically unable to enter, follow this procedure with the VLM or AVL and a PEO of a different political party:

- Take a paper to record the voter's information outside to the voter.
 - The voter states their name and current address.
 - The voter provides a valid identification and it is examined.
 - The voter signs the paper containing their name and address.
 - In a Primary Election ask the voter what type of Ballot they would like to vote (the specific party or non-partisan if available)
- Return inside the Polling Location. Check the Poll Pad for the name of the voter using the normal check-in procedures.
- Record the precinct of the voter as indicated on the Voter Confirmation screen. If the voter is a qualified elector and resides in a precinct within the Polling Location the voter will be issued an Optional Paper Ballot.
- Verify that the voter's signature substantially
- conforms to the voter's signature in the Poll Pad.
- With another PEO of the opposite party, record "**Curbside Voter**" in the signature line.
- Use the regular processing procedures for a regular Optional Paper ballot for the voter on the Poll Pad. See the Poll Pad instructions for details.
- Tap on the "Curbside" box on the Pollworker Confirmation Screen. (See pg 43)
- Tap the down arrow by Express Vote in left corner, select Paper.

Overview

In addition to all of the general duties, they must know which forms of photo identification are acceptable and work to make sure each voter is professionally assisted through the qualifying process. In locations without Voter Assistants they will work with the managers to open all equipment as well.

Before the Polling Location Opens

The screenshot shows the 'Identification Types' selection screen. At the top, it displays 'Lorain County FAITH BAPTIST CHURCH' and 'Precinct Records: 3114 Checkins: 0 (SB: 0)'. There is a 'START OVER' button. Below this, there is a blue header 'Identification Types'. On the left, there is a list of ID types: 'SELECT ID TYPE', 'Photo ID / State ID / BMV Intrin Form', 'Passport or Passport Card', 'US Military / US Dept Veteran Affairs / Ohio National Guard', and 'No ID'. A red arrow points to the 'SELECT ID TYPE' option. On the right, there is a large text area that says 'Choose an ID from the left.'.

5. The screen will ask for you to choose the ID used from the options available. It will ask you to confirm the voter's ID is not expired. Tap **Correct and OK**.
6. The **Voter Confirmation** screen will appear with the voter's name and address. Voter Confirmation pg 40.

Voter Confirmation

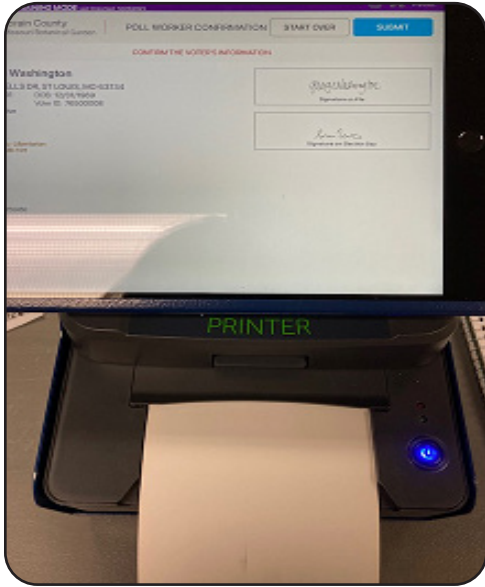

1. The Voter name will appear on the **Voter Confirmation** screen unless **"No Records Found"** message appears. See **Advanced Options** for "No Record".
2. If you have not already done so, ask the voter to state their name and current address. Tap **"Accept"** if voter name and address are correct.

3. **Party Selection**
In a Primary Election the **Party Selection** screen will ask to choose your party. Flip the screen over to allow the voter to make a selection.

The party (or non-partisan) option selected will display in black. Retap or tap another party to change. Instruct the voter to make their ballot selection and tap **"Accept"**.

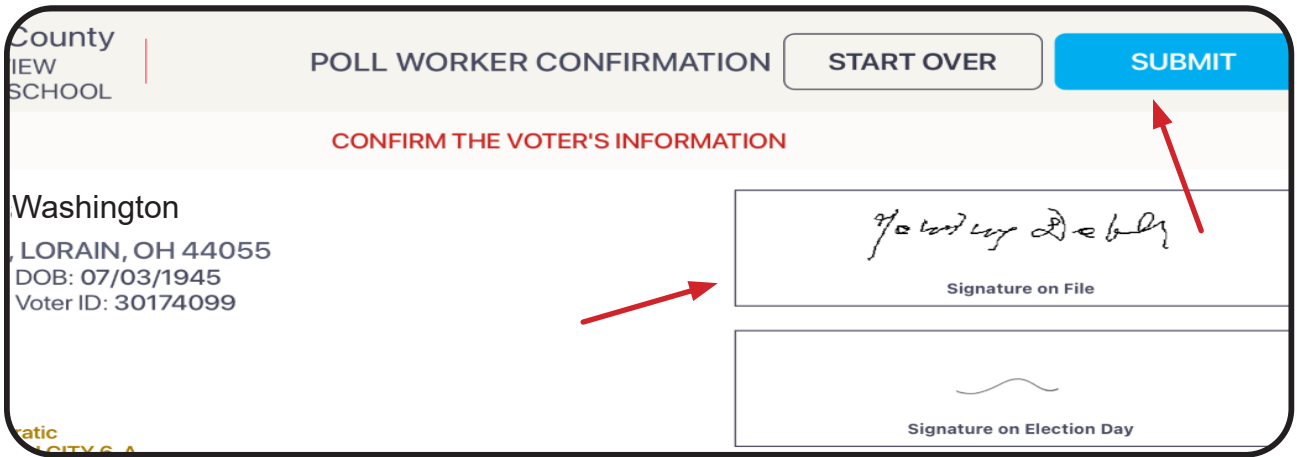

4. **Signature** -Ask the voter to sign on the signature line at the bottom of the screen. The voter may select **"Done Signing"** when finished. Flip the screen back down towards you and select "Done Signing" in the upper right corner if the voter did not.

6. **Ballot Card**- Insert the ballot card into the ExpressVote printer, notched corner on the right.

7. Tap **"Submit"** in the upper right corner .

8. **Printer Error** -If the ballot card is not in the printer an error message will display. Ensure the ballot card is fully inserted into the printer and Select **"Retry"**.

Do NOT select Proceed Anyway.

If the message appears after inserting the ballot card, check that the printer symbol in the upper right corner is green. A red printer symbol indicates that the printer is not connected. Call the BOE.

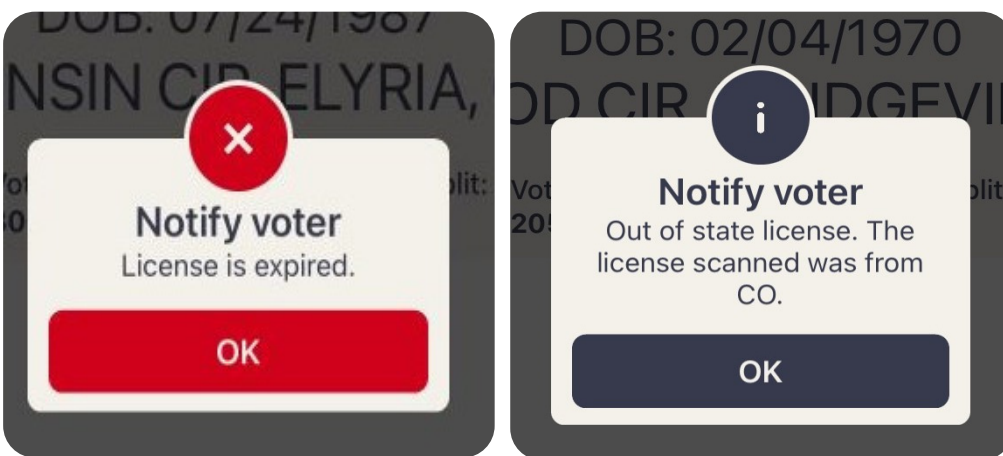

9. **Processed** - The screen will display the voter name, ballot style and precinct, "Processed Successfully"

NOTE: Once the Ballot Card has been written it cannot be changed, but a manager can void and issue a new card. See pg 48 for Spoiling and Reissuing a Ballot.

The Ballot Card will now have a bar code printed at the top specific to the precinct of the voter and the type of ballot, if applicable. Hand the voter the Ballot Card, offer the voter a disposable secrecy envelope to use to cover their Ballot Card after printing and direct them to the ExpressVote Units.

Remind the voter that they must take the finished printed Ballot Card to the DS200 Scanner to cast their ballot.

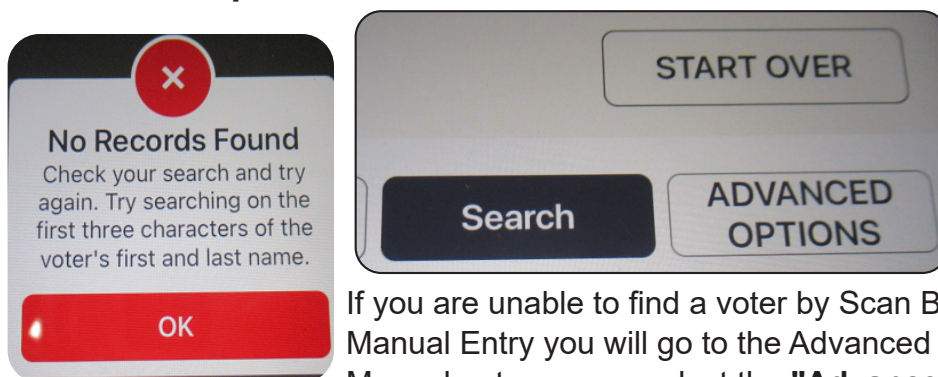

Scan Barcode Alerts

If a voter attempts to use a Driver's License from out of state or an expired license the Poll Pad will alert you. Ask the voter if they have another form of photo ID, as neither of these are valid.

If a voter is not found the Poll Pad will alert "No Records Found". Search by Manual Entry and if no records are found search by Advanced Options.

Advanced Options

If you are unable to find a voter by Scan Barcode or by name on Manual Entry you will go to the Advanced Options. On the Manual entry screen select the **"Advanced Options"** in the upper right side of the screen. This allows for a search by DOB (date of birth) or Address.

Advanced Options - Search by Date of Birth (DOB)

1. On the **Manual Entry** screen, select **ADVANCED OPTIONS**, located in the upper right corner of the screen. Leave the name fields empty. Clear the name if entered.

2. Tap DOB

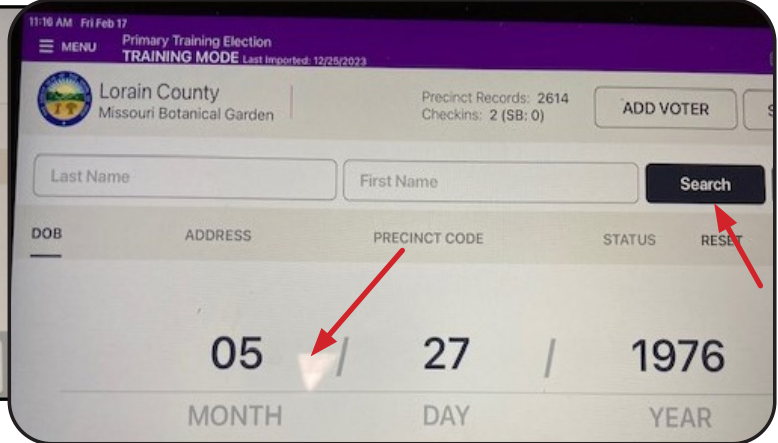

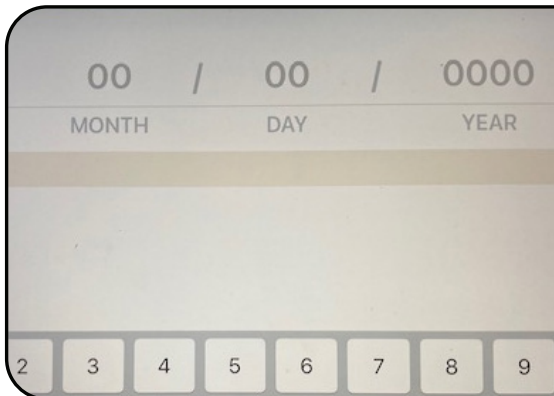

Tap **DOB**, located on the left.

The screen will change displaying the month, day, year fields.

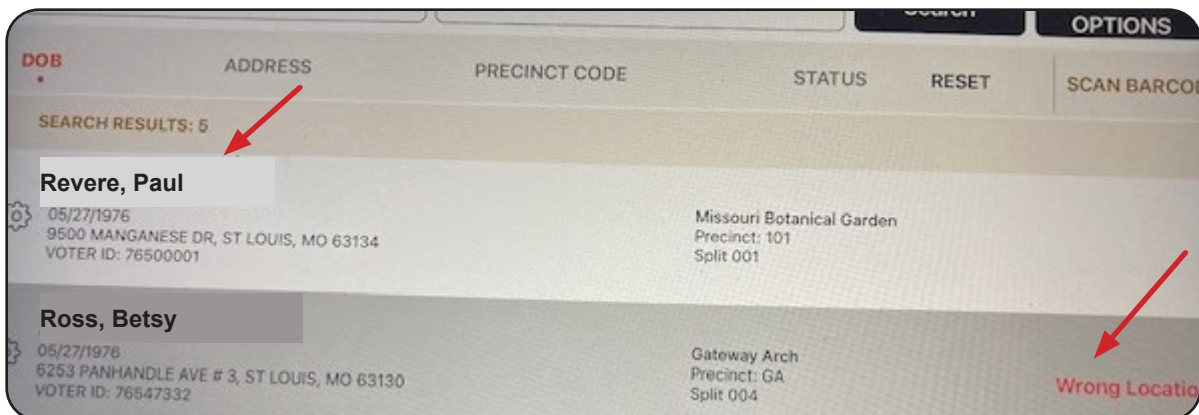

3. Enter the Date of Birth

Enter the DOB using 2 characters for month & day and 4 characters for the year. EX: 05/27/1976. Tap the **Search** button.

4. Select Voter's Record

Records matching your search will display. Locate the voter's name and verify that it does not contain any exceptions. Select the voter by tapping the record.

NOTE: Poll Pad will display all registered voters with the same DOB. Out of location voter's will display in gray with "Wrong Location".

If the voter is not found, reconfirm DOB, if correct, switch to ADDRESS and search. If still not found, get a manager to assist voter at the Help Desk.

Optional Paper Ballot

If a voter requests an optional paper ballot rather than using the ballot card on the ExpressVote Unit you will need to get a manager for assistance.

1. Process the voter as usual using the Scan Barcode or Manual Entry.
2. On the Voter Confirmation screen note the voter Precinct and Split. In a Primary Election note the party ballot type selected by the voter. Write this down for the manager

Voter Unable to Sign

- If the voter can, they should make their legal mark, such as an “X,” in the Poll Pad. The precinct election official who watched the voter make their legal mark, writes the voter’s name on the signature line in the Poll Pad following the voter’s mark (R.C.3505.18(B)); <or>
- The voter can have their attorney-in-fact sign the voter’s name for them. In order to have an attorney-in-fact, the voter must have completed and filed the correct forms with the Board of Elections before Election Day (Form 10-F or Form 10-G) so the attorney-in-fact’s signature will be on file, and it will be noted in the Poll Pad. The voter must have their attorney-in-fact accompany them to the polling place. Allow the attorney-in-fact to sign the Poll Pad, in the presence and at the direction of the voter. The signature of the attorney-in-fact should be examined, and if it appears on its face to conform to the attorney-in-fact’s signature pre-printed in the Poll Pad, the voter should be given a regular ballot (R.C.3505.18(B)).

When to Notify the Manager- Special Situations

Name Change

When a voter has legally changed their name, but has not updated the voter registration ask the voter to provide proof of the legal name change (e.g., a marriage license or a court order that includes the voter’s current and prior names) as indicated on Form 10-L which the voter must complete and sign. The voter may **cast a regular ballot**, as long as the voter is registered to vote in that precinct and provides proper ID. If the voter legally changed their name and does not have proof of the legal name change, the voter must cast a provisional ballot.

IMPORTANT: A Driver’s License is not proof of Name Change

Voter’s Name Not in Poll Pad

If the voter’s name is not found in the Poll Pad, use the **Advanced Options** to input the voter’s DOB. The voter’s name may be misspelled or have unique spacing. If the voter’s name is found after entering the DOB, proceed as usual.

If the voter’s name IS NOT in the Poll Pad after looking by name and DOB, the Poll Pad Official will notify a manager. The Manager will use the Precinct Finder application to determine if the voter is to be directed to a different Polling Location or vote a provisional ballot. If the voter’s name IS NOT in the Poll Pad, but the voter’s is in a precinct at your location, the voter must cast a Provisional Ballot and fill out the Provisional Ballot Affirmation (Form 12-B) on the envelope.

Voter's Name is not an Exact Match

The Voter may state a name that is listed slightly different than in the Poll Pad. The voter's stated name must substantially conform to the name as it appears in the Poll Pad. A variation of the name is allowed. Examples:

Name on ID	Name in Poll Pad	Regular Voter-Issue Ballot Card	Contact Manager
Kaye Ann Smith	K. Ann Smith	X	
Mary Evans	Mary Young		X
Robert Jones	Rob Jones	X	
Tom Sullivan	Tim Sullivan		X
Jane Rich-Thomas	Jane Thomas		X

Note: when Hispanics/Latinos apply for a the new driver's license, their last name is changed to what is on their birth certificate which in many cases includes their mother's maiden name. Hence their new license has a hyphenated last name.

Voter is at Wrong Polling Location

If the voter's address is outside of the precincts of the Polling Location, the Manager will use the Precinct Finder application in the Poll Pad to search by voter by address. The Manager will issue the voter a **Vote Center Transfer Slip**, and explain to the voter that a provisional ballot cast in the wrong precinct cannot be counted. As needed the Manager will provide the voter with the telephone number of the Board of Elections in case the individual has questions (R.C.3505.181(C)(1)). If the voter still insists on voting in the wrong precinct after being directed to the correct precinct or polling location, the voter must cast a provisional ballot and the manager will fill out the Provisional Voter Precinct Verification form 12-D.

Voter Changed Address - Same Polling Location

If the voter's address has changed the Manager will use the Precinct Finder feature to determine the Polling Location of the voter's new address. If the voter's new address is the same Polling Location then determine if the precinct is the same.

If the voter is in the same precinct they will fill out a **Voter Registration** form to update their address and will be issued a regular ballot using their name under their former address on the Poll Pad.

If the new address is in a different precinct in the same Polling Location the voter will be issued a provisional ballot for that precinct. They may **not** be issued a regular ballot.

Right Polling Location – Wrong Precinct

If the voter is in the right Polling Location and insists on voting in the wrong precinct, the Precinct Election Official must complete the Provisional Voter Precinct Verification (Form 12-D) and attach it to the voter's completed provisional ballot envelope. This form demonstrates that the Precinct Election Official directed the voter to the correct precinct and that the voter refused.

Voter Forgot ID/ Invalid ID

If the voter's name is in the Poll Pad, but the voter forgot their ID or it is not a valid ID, first ask the voter if they have any other form of ID and give them examples from the ID requirements section of the manual or the white "Important Voter Information" sign. If they still do not have a valid form of ID, the voter MUST cast a provisional ballot. Each provisional voter must complete the Identification Envelope- Provisional Ballot Affirmation (Form 12-B) and be given a Provisional Ballot Notice (Form 12-H).

Voter Does not have a Photo ID - Religious Exemption

If the voter does not have a photo identification due to religious objections they may fill out a Provisional Ballot and should be given the Affidavit of Religious Objection form (Form 12-O) located in the manager's binders. The form should be placed in the Completed Forms Envelope.

Voter Unable to Mark Ballot (R.C. 3505.24)

If a voter is unable to MARK his or her ballot, the voter has the following options:

- Any elector who declares to the voting location manager that the elector is unable to mark the elector's ballot by reason of blindness, disability or illiteracy may be accompanied into the voting booth and given assistance
- Any elector who declares to the voting location manager that the elector is unable to mark the elector's ballot by reason of blindness, disability or illiteracy may be accompanied at the voting booth and aided by any person of the elector's choice, other than the elector's employer, an agent of the elector's employer, or an officer or agent of the elector's union, if any. Assistance shall not be rendered for causes other than blindness, disability or illiteracy, and no candidate whose name appears on the ballot shall assist any person in marking that person's ballot;
- The elector may request and receive assistance from two election officials of different political parties to mark the ballot.

Any person who provides assistance to a voter in marking the ballot is forbidden by law from providing any information in regard to marking of the ballot. (R.C.3505.24)

Spoil Ballot / Re-issue Ballot – (Manager Function) (Call BOE)

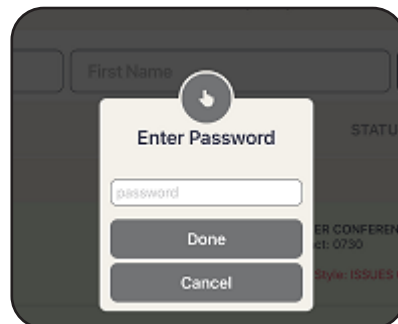

If a voter has not cast a ballot the ballot may be voided and a new ballot issued. This may be due to an ExpressVote malfunction that has caused the ballot to be damaged, in a Primary Election- the wrong party style of ballot was issued or the voter has stated that they need to change their selections after printing the ballot, but before casting it.

1. Look up the voter on the Poll Pad. **"Voted"** will be displayed on the screen.

2. Tap on the gear symbol beside the voter's name.

3. Enter the "gear" password found in the manager's binders. Select "Done".

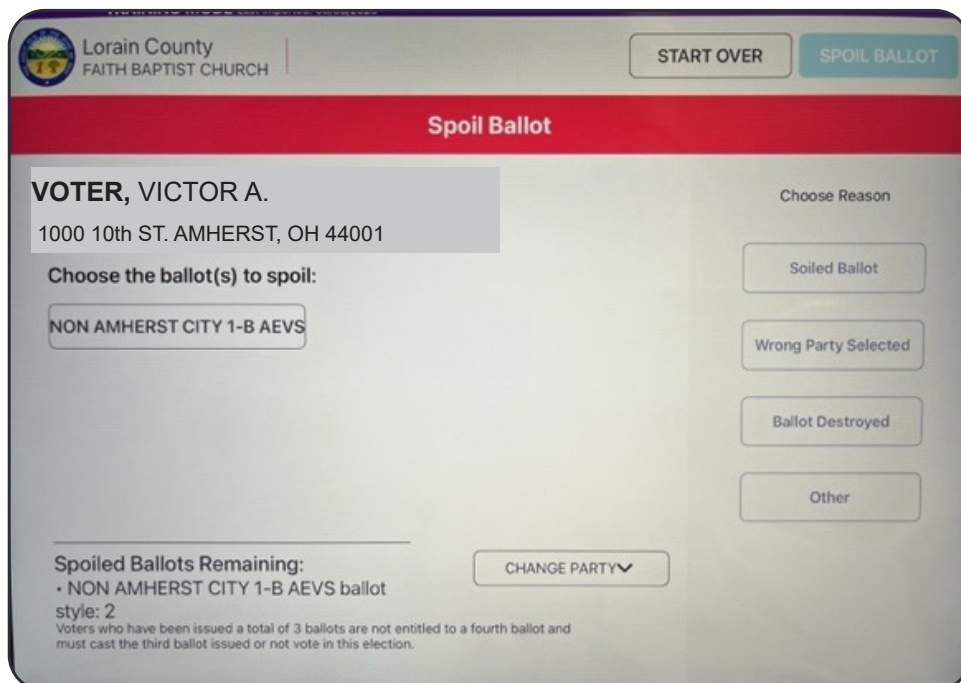

4. The screen will display the option to "CANCEL VOTER CHECKIN" "SPOIL BALLOT". Select **Spoil Ballot**. You **MUST Call BOE to Cancel Voter Checkin**.

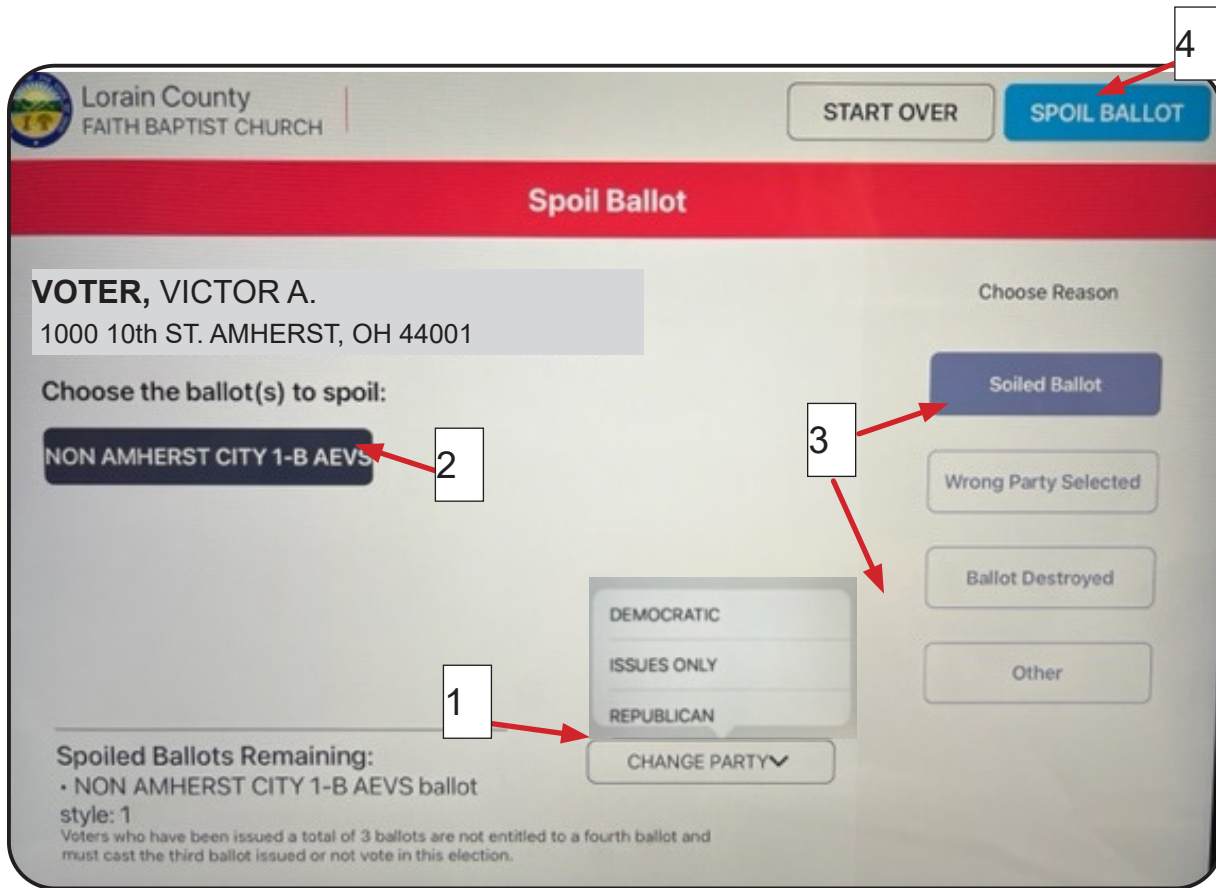

5. The screen will display Spoil Ballot.

NOTE: To change ballots in a Primary Election you **MUST** select the **"Change Party"** option at the bottom of the screen to re-issue the new ballot.

This feature is not used for Optional Paper Ballots.

Spoil Ballot Screen

1. Select the **"Change Party"** a pop up will appear to select the new ballot if you are issuing a new party ballot at the voter's request, otherwise this does not have to used.
 2. Select the ballot displayed under the voter's name "Choose the ballot(s) to spoil" the displayed ballot will then be black. If the ballot displays as UNAVAILABLE this is due to a 17yr old voter selecting the ISSUES ONLY Ballot, this is not a valid ballot.
 3. Select the reason under **"Choose Reason"** on the right side of the screen.
 4. Tap on the blue **"Spoil Ballot"** in the upper right corner. If it is pale blue and will not proceed, then you have not selected the ballot to spoil and/or the reason.
- The screen will then display to enter the ballot style. Type in the number based on how many ballots that have been spoiled thus far. (Ex: 1st ballot being spoiled -enter 1, 2nd ballot- enter 2, etc.).

Place spoiled/voided ballot in the **Soiled and Defaced** envelope and enter the detailed information in the red Incident Log. Indicate in the Incident Log why the ballot was voided. **Write the time and if possible the name of the voter on the ballot card.**

If there is no ballot to void due to the printer not printing an original ballot and/or **"Proceed Anyway"** was selected mistakenly, make sure this is indicated in the Incident Log.

Alternate Option to access Spoil Ballot

1. Look up the voter on the Poll Pad. "Voted" will be displayed on the screen.

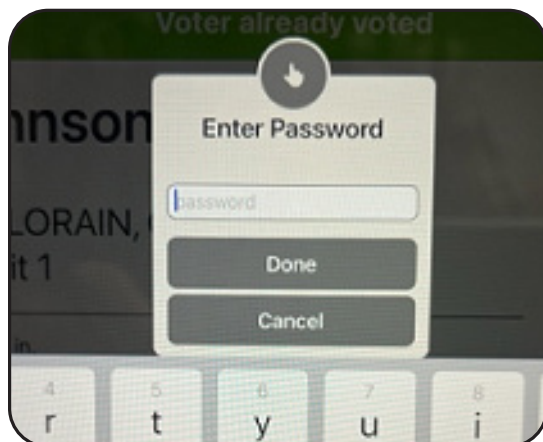

2. Tap on the section for that voter instead of tapping the "gear".

3. The screen will display "**Voter already voted**"

4. Select "Spoil Ballot" (Do not use **Cancel Check-In** unless it has been approved by the BOE).

5. The screen will prompt to enter the "gear" password. Password is in the manager's binders. Enter password and select "**Done**".

"**Spoil Ballot Screen**" on pg 48.

Follow the steps 1-4 to spoil and re-issue the ballot.

NOTE: If the ballot was abandoned (See Fleeing Voter) the ballot is Voided by writing "Void" on the ballot and the manager will place it in the Soiled and Defaced envelope and document it in the red Incident Log.

Closing the Polling Location

After all the voters that have arrived at the Polling Location by 7:30pm and have completed the voting process the VLM will make the official announcement that the polls are closed. Once the announcement has been made you can begin to close down your Polling Location.

The VLM will designate an Poll Pad Table Official to remove the posted materials from the walls of the Polling Location, to remove the flags from the entrance and outside the Polling Location.

The Certification Poll Pad Closing Reports must be filled out for every Poll Pad.

The Ballot Card Inventory report must be filled out. The manager will use the Summary Report at the Help Desk to complete this.

Logging Out of the Poll Pad

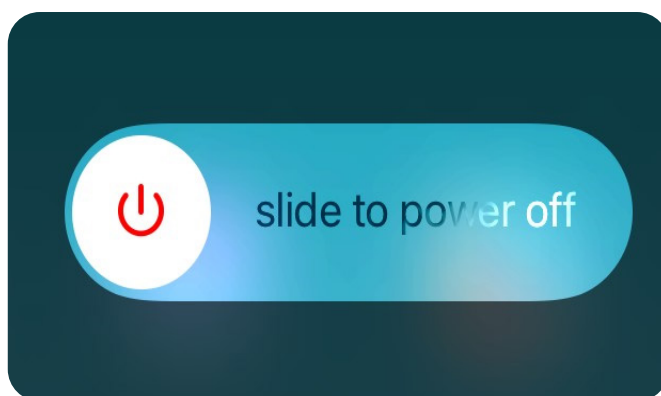

NOTE: The Certification Poll Pad Closing Report must be filled out prior to Logging Out of the Poll Pad.

To shut down the Poll Pad press and briefly hold the power button on the upper left side.

The screen will display "**slide to power off**". Slide the icon to the right to power off.

Unplug the tablet. Pull up on the silver POLL PAD lever at the top to release the pad from the stand.

Re-Packing the Poll Pad

Open the black case. Lay each Poll Pad with the Poll Pad Closing Report between the sleeves inside the case. Up to 8 will fit in the case. The case will be sealed by the manager.

Re-Packing the Printer

Open the grey case by squeezing the lever on each side of the handle on the front of the case. The ExpressVote printer will remain in the stand placed inside the case. Unplug the cords from the printer to place in the case. The printer will shut off when unplugged.

The case does not have to be sealed. See the Poll Pad instruction booklet for more details on packing.

Voter Assistants

Voter Assistant Overview

A range of very specific duties are performed by the Voter Assistants prior to the Polling Location being opened, during the voting process, and while closing down the Polling Location. They play a critical role in making sure every voter receives assistance as needed, in a timely fashion and equipment is cleaned after every voter.

Before the Polling Location Opens- Equipment Custody

The AVL M oversees each team of Voter Assistants in opening the ExpressVote Units and DS200 Scanners within the Polling Location. When there are Help Desk Officials in your Polling Location they will assist.

The AVL M will locate the Equipment Custody (see pg 98) in the side pocket of the ExpressVote Printer bag at the Help Desk. Two PEOs will check the seal numbers on all ExpressVote units and DS200 Scanners using the form and sign it when done. Notify the AVL M if there are any discrepancies or seals are voided. The AVL M and VLM must also sign the form. If you cannot find the form, collect the blue seals from the ExpressVote units and set them aside until the form is located; call the BOE Do not remove the DS200 seals. Proceed with opening.

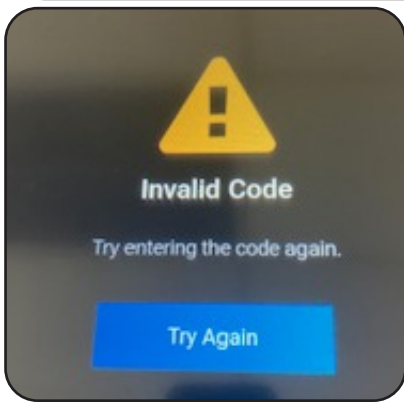

Opening the ExpressVote Units

1. Get the barrel key, Opening Procedures Form, and the Election Code from the AVL M.
2. Open the left side access compartment on the ExpressVote Unit using the barrel key. Remove the seals and discard unless otherwise instructed.
3. Push down on the rocker Power switch to the “ON” position. Push the Mode switch to the “Voter” position.
4. One unit will have the Audio Tactile Keypad, ensure that it is plugged in and the cord feeds through the channel in the security door. The head phones located in the red tote, will be placed on that unit and plugged into the auxillary panel on the front. Ensure that they are accessible to any voter who wished to use them.

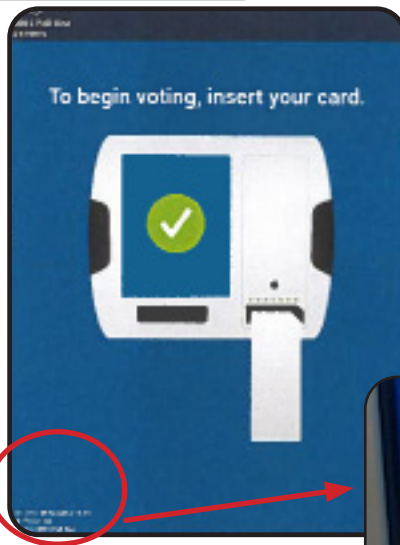

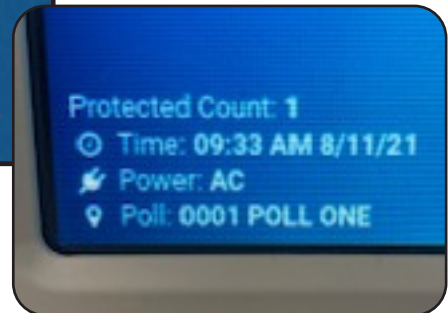

5. Enter the Election Code. If you make a mistake entering the code use clear or the back arrow to correct the code. Invalid Code will appear if the wrong code is entered. To Cancel a Ballot / Voiding a Ballot/ Fleeing Voters

Canceling or voiding a ballot must be done by a manager with a member of the opposite political party.

If the ballot card is damaged or cannot be used in the ExpressVote or DS200 Scanner, the card will be voided and a new card re-issued. The voter must return the original ballot to be voided first.

If a voter requests a new ballot card due to wanting a change in the card style (ex: party selection) or a change in vote selection after the card is printed, the voter may have the card voided and re-issued. A voter can be given up to 3 ballots when re-issuing, but the previous ballot must be voided each time.

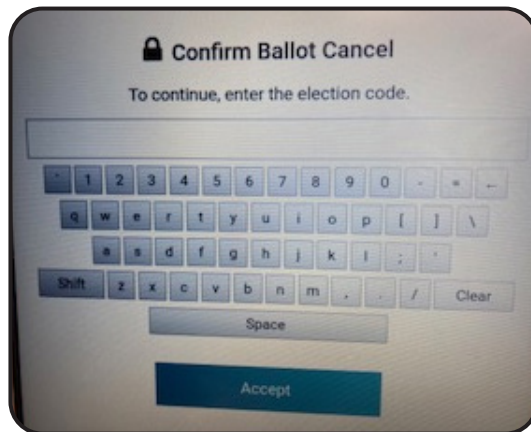

If a voter wants to cancel the voting session they can select the "Quit" button on the screen in the top right corner.

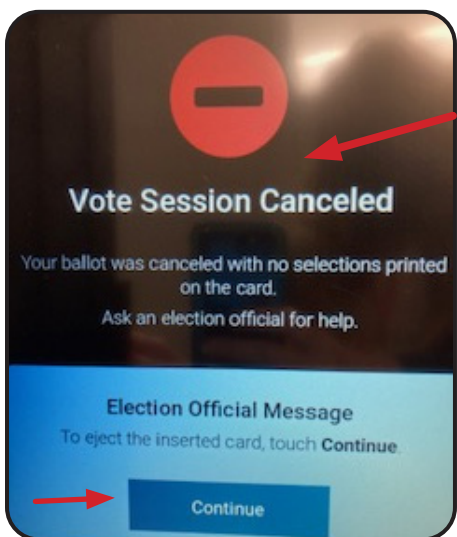

It will prompt "Quit Voting" select "Return" to continue or "Quit Voting" to quit. Tap "Quit Voting". The screen will indicate "Vote Session Canceled".

Select "**CONTINUE**". Follow the prompts to Enter the Election Code and the reason for cancelling. The ballot card will not contain any vote selections. Void the ballot.

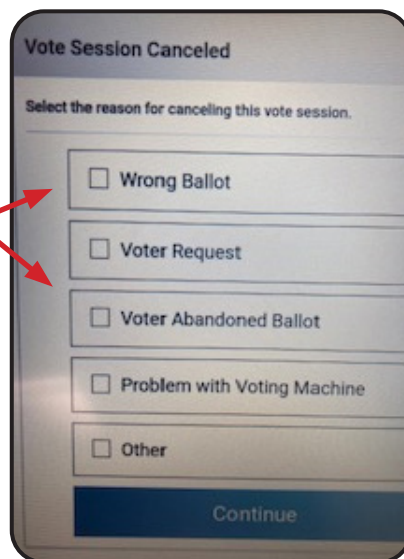

If a voter leaves a ballot without printing or casting, referred to as a "Fleeing Voter", the ballot may not be counted. The unit will timeout if left idle for 5min. An alert will appear. The unit will alarm (beep). Tap the red circle icon to end the alarm.

Tap "**End Voting**", enter the Election Code then tap "**Accept**". On the "Vote Session Canceled" screen; tap "**CONTINUE**".

The unit will ask you to select the reason for canceling the vote session. Tap the screen indicating the reason and the item will display as a green box with a checkmark. Void the ballot card

To Void the ballot, write "Void", the date and if possible the name of the voter on it. Place it in the green "**Soiled and Defaced**" envelope. Do Not tear ballots. Any canceled, voided or re-issued ballots must be documented in the **Incident Log** by the managers.

- and may be accompanied at the voting booth and aided by any person of the elector's choice, other than the elector's employer, an agent of the elector's employer, or an officer or agent of the elector's union, if any. Assistance shall not be rendered for causes other than blindness, disability or illiteracy, and no candidate whose name appears on the ballot shall assist any person in marking that person's ballot (R.C. 3505.24);
- The elector may request and receive assistance from two election officials of different political parties to mark the ballot. (R.C. 3505.24)

Help Desk Officials

Overview

When a voter is not able to vote a regular ballot, they will be taken to the Help Desk by the VLM or AVL. The Help Desk Official will provide individualized attention to the specific circumstances of each voter, determining the best course of action. The Help Desk Officials will work at the table processing voters. The managers will determine who is at the table and alternate officials according to the needs of the Polling Location. The Help Desk will need to be extremely diligent in keeping each of the precinct supply bags separate. Each of the bags will contain ballots that are unique to the specific precinct and therefore cannot be mixed in with other ballots.

NOTE: Not all Polling Locations will have dedicated Help Desk PEOs. The VLM and/or AVL will fill this role in addition to their other duties.

Before the Polling Location Opens

At opening the Help Desk Officials will assist the Voter Assistants in opening the Voting Units if necessary. When all of the ExpressVote Units are operational and ready for voters, the AVL will give the Help Desk(s) officials one yellow bag for each precinct in the Polling Location. The bags will contain all Provisional ballots and paper ballots for the precincts and the supplies necessary for all voters.

A Poll Pad will be at the Help Desk and must be set up. Refer to the Poll Pad section of the manual or the Help Desk booklet for instructions. Confirm that the Poll PAD with the green label is at the Help Desk.

The Help Desk will have the CradlePoint plugged into the back-up battery.

IMPORTANT: The report printer will be at the Help Desk. Test the printer by taping the printer symbol, select Print Test Receipt.

Additional rolls of paper are in the green Help Desk case.

Provisional Ballots

There are 6 basic reasons why a voter needs a provisional ballot.

Use The Provisional Quick Reference Guide located in the back of the Manual (last page).

- **Voter's name does not appear on the official poll list for that precinct;**
- **Voter is unable to provide photo identification;**
- **Voter has moved to a different precinct;**
- **Voter has changed their name but not updated their voter registration and they do not have proof of the legal name change;**
- **Voter's name appears on the official poll list for that precinct as having already requested an Absentee ballot;**
- **Voter's name is marked on the poll list or signature book with a notation that the voter must Vote Provisional in red;**
- **Voter's precinct is not at the polling location, but voter refuses to go to the correct polling location and demands a ballot.**

A provisional voter is someone that is not able to vote a regular ballot. Sometimes voters move, change their name (and are not able to provide proper documentation) or do not have proper identification and are therefore not able to vote on the Voting Units.

The Help Desk Official works with the managers to assist the voters. Use the Provisional Quick Reference Guide located in the back of the manual to determine how to process this voter or if the voter should be sent to a different Polling Location, and to determine if there are any additional forms required for that particular voter.

For every Provisional Voter you will need to complete the Provisional Log. The log should be completed while the voter is still present to ensure accuracy.

Provisional ballots must be kept in the yellow bags at the Help Desk by precinct. Each yellow bag contains a separate precinct's ballots.

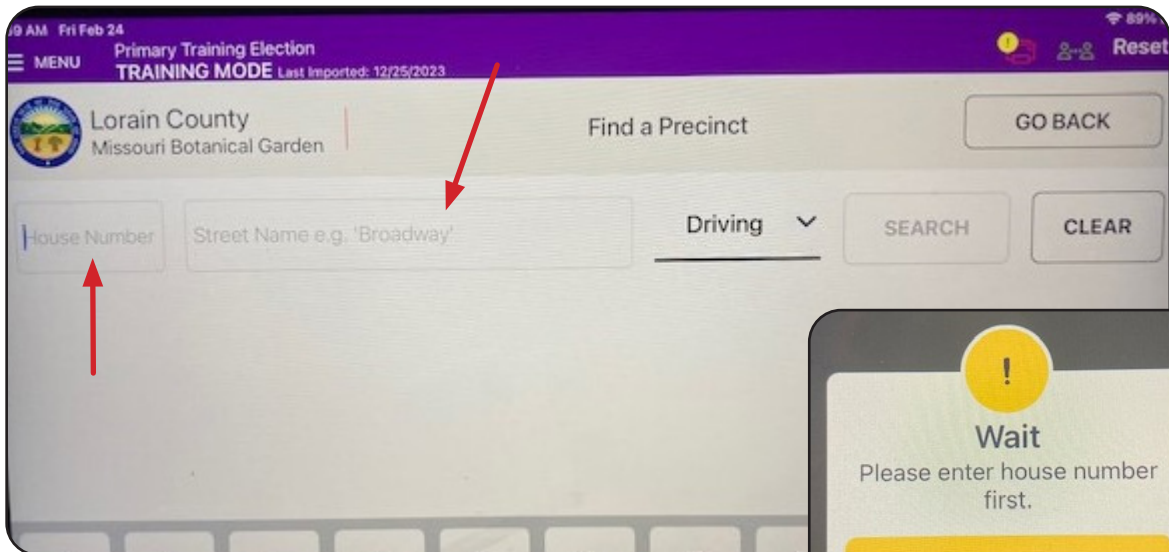

Voted provisional ballots will be placed in the Provisional Ballot Box via the slot at the top of the box after the ballot envelope (Affirmation Statement) has been reviewed for errors.. Do not break the seal on the zipper.

Precinct Finder/ Processing Voters at Help Desk

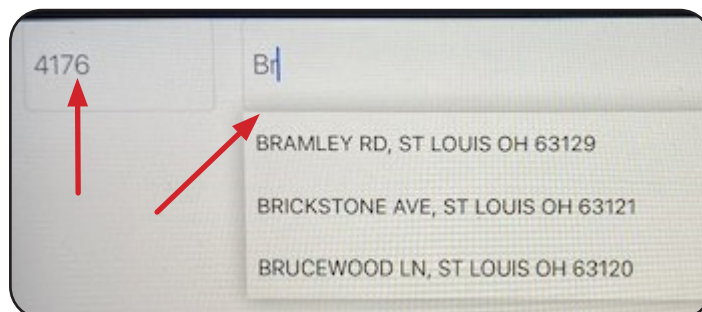

To navigate to the the **Precinct Finder**, tap Menu in the upper left corner of the screen. On the Home screen tap on the application icon as indicated.

1. Ask the voter for their current address
2. Enter the House Number. The pad will prompt you if you do not enter the house number first.

3. Enter the street name. A drop down will appear with street names as you type. Tap on the correct street as it is displayed.

4. Tap on "Search".
5. It will display the voter's Polling Location and Precinct based on the voter's address entered.
6. If it is determined that the voter is in the correct location, in a Primary Election, as the voter what Ballot style they would like based on the party or issues only ballots available.
7. Using the precinct information including the Split as indicated, to get the Provisional Ballot envelope with the ballot inside, from the yellow bag labeled by precinct. Take the ballot in numerical order and ensure that the label on the envelope matches the precinct based on the voter's address.

The screenshot shows a search interface with the following elements:

- Address: 345 STANFORD AVE, ELYRIA OH 44035
- Mode: Driving
- Buttons: SEARCH, CLEAR
- Precinct: 0430
- Ballot Style: REPUBLICAN ELYRIA CITY 1-A, Unknown, NONPARTISAN ELYRIA CITY 1-A Split: 1
- PRINT LOCATION button
- Polling Location: **EAST RECREATION CENTER**, 1101 PROSPECT ST., ELYRIA, OH, 44035
- FOR BOARD USE ONLY section with fields for Application No., Registration Type, and County ID.
- Ballot Style (X,D,R) section showing: X0430 1, ELYRIA CITY 1-A, Issues Only, 1
- Provisional Ballot Label section

Annotations in the image include:

- A yellow arrow pointing to the address field.
- A green arrow pointing from the precinct number '0430' to the 'X0430' part of the ballot style.
- An orange arrow pointing from the text 'Ballot Style (X,D,R)' to the 'X0430 1' part of the ballot style.
- A red arrow pointing from the 'Split: 1' text to the '1' in the ballot style.
- A red circle around the polling location name 'EAST RECREATION CENTER'.
- A red arrow pointing from the word 'Split' to the '1' in the ballot style.

(The ballot label will have the ballot style (Party) in a Primary Election.) Match the label to the Precinct by the name, number, letter (if applicable) and split number, if there is a split in the precinct, (Ex: LORAIN CITY 6-A Split 1; OBERLIN CITY 6 Split 2)

NOTE: When a voter has moved within the same Polling Location look up the voter's former address to determine if the voter has moved within the same precinct. A voter may vote a regular ballot if they are in the same precinct. have the voter fill out a Voter Registration Card and process them as a regular voter. Select Menu and Home to return to the voter processing screen.

(The ballot label will have the Party in the Primary Election.) Match the label to the information on the screen)

8. If the voter's precinct is not at the Polling Location the voter should be informed and given a Vote Center Transfer Slip.

IMPORTANT- When transferring a voter, make sure you are looking at the voter's current address to locate the Polling Location. Do not use the Voter Record with the voter's former address.

Voters in the Wrong Polling Location

If a voter's name cannot be found in the Poll Pad it might be that they are not in the correct Polling Location. The voter's current address will be checked to determine if they are in the correct Polling Location or if they need to be issued a Vote Center Transfer Slip and directed to a different Polling Location.

Use the Poll Pad or the paper Precinct Finder to determine the voter's correct Polling Location or the Manager will contact the **Board of Elections at 440-326-5919 or 440-326-5953** to review a voter's information and determine how to proceed.

Vote Center Transfer Slip (located in Provisional Supplies Envelope)

"**Vote Center Transfer Slips**" are only issued by the VLM or the AVL M.

If you see the voter is in the incorrect Polling Location after checking Poll Pad, notify a Manager so that they can double check before forwarding the voter to a different voting location. Review with the voter the exact location information.

Issuing a Provisional Ballot

1. Find the appropriate ballot for the voter by looking up their current address in the Poll Pad using the Precinct Finder.

2. Get the **correct precinct ballot** from the appropriate precinct yellow bag. Look at the label on the Provisional Envelope that contains the ballot, confirm the voter's correct precinct (split if applicable indicated by a 1, 2, 3, 4, 5 or 1-2, etc).

The split is the last number. In a Primary Election select the correct Party or issues only ballot that the voter has chosen. **Each envelope will be labeled by precinct. (label may differ slightly with each election and may not contain a ballot style)**

3. Give the voter a pen to use. Instruct the voter to complete the Provisional The Provisional Ballot Notice is included in the envelope for the voter to take home with them. See page 112-113 for copy of the Affirmation envelope.

4. Go over the Affirmation Statement with the voter. Instruct the voter to:
-PRINT first and last name. If a voter writes in cursive, then draw a line through it, have the voter initial the error and PRINT their name.

-Record date of birth- in section #2.

-Print current full address. Street address is needed, but a voter who has a PO Box mailing address can list both addresses.

-If they have moved without updating their voter registration they should record their former address to have the most up to date information possible and fill in Section 6.

-Sign their Name in Section 7 and fill in the date for it to be valid.

Voters should indicate their votes by filling in the ovals on the ballots. X's or check marks will not count.

5. The ballot should be sealed in the envelope. Once you have reviewed the envelope, have the voter correct any mistakes, then thank the voter and give them a vote sticker. **Remind the voter that they have 4 days to go to the BOE to show a valid photo ID if they did not provide one and have them take the Provisional Ballot Notice.**

6. Fill out the Provisional Log. Place envelope in the sealed Provisional Ballot box. All voted provisional ballots will go in the sealed ballot box.

Provisional Log

Record the information regarding the Provisional voter in the Provisional Log book. This needs to be done when the voter is being processed.

1. Record the voter's information.
2. Record the ballot issued. In a Primary Election document the style of ballot using the letter designation (ex: D=Democrat, R=Republican, X=Issues Only non-partisan). Record the 4 digit precinct number and the split number. This should match the ballot label and the precinct/split information in the Poll Pad in the Precinct Finder application.
3. Document the reason that the voter was determined as a Provisional voter. If the "Other" box is checked the BOE should have been called to confirm that the voter should be given a Provisional ballot.
4. After the voter completes the ballot and returns it in the envelope to you, review that the Affirmation Statement on the envelope is completed properly, if not instruct the voter to correct it. Complete the remaining information on the log page.
5. Use the Comments section if you need to communicate additional information.
6. Sign the log. The VLM or AVL M will also sign the log.

Change of Address (Voters that have moved Within the Same Precinct)

When a voter has moved we need to determine the following:

- if they have moved within the same precinct; or
- if they have moved into a different precinct at the same Polling Location;
- If they have moved to a different Polling Location.

If a voter has moved **within the same precinct**, and the Poll Pad shows their former (old) address, have the voter complete a Voter Registration Card. **The Voter will vote a Regular Ballot not a Provisional Ballot.** Once the voter fills out the Voter Registration Card place it in the Completed Forms Envelope. The voter should be processed using their name in the Poll Pad under their former address.

If you are unsure of whether or not the voter has moved within a precinct or out of a precinct within the same Polling Location call the BOE. Be prepared to give both the voter's former address and current address.

Voters who have moved into a different precinct than the precinct of their former address or into a new Polling Location must vote a Provisional Ballot. Remember a Polling Location can have multiple precincts so a voter can be at the same Polling Location and have a different precinct ballot. All ballots are determined by precinct not Polling Location.

Name Change

When a voter legally changes their name but has not updated their voter registration ask the voter to provide proof of the legal name change (e.g., a marriage license or a court order that includes the voter's current and prior names) as indicated on Form 10-L which the voter must complete and sign. The voter may cast a regular ballot, as long as the voter is registered to vote in that precinct and provides proper ID. If the voter legally changed their name and does not have proof of the legal name change, the voter must cast a provisional ballot.

If a registered elector provides proof of a legal name change to a manager the elector may complete and sign a Notice of Change of Name (10-L) (located in the Manager's Binder) and **cast a regular ballot**, as long as the elector is registered to vote in that precinct. Please note that if a registered voter has moved from one precinct to another precinct and changed their name the voter must vote a Provisional Ballot.

NOTE: A Driver's License is not proof of Name Change.

Voter Does not have a Photo ID

If the voter does not have a photo identification they must vote a Provisional ballot. Instruct the voter that they must come to the BOE within the designated time frame as indicated on the Provisional Ballot Notice, typically 4 days from the election, with a valid photo ID for the ballot to be counted.

Religious Exemption

If the voter does not have a photo identification due to religious objections they may fill out a Provisional Ballot and should be given the Affidavit of Religious Objection form (Form 12-O) located in the VLM binder.

Issue Optional Paper Ballot (see detailed instructions in Poll Pad section)

1. Process the voter as usual. On the Poll Worker Confirmation screen change the "ExpressVote" located in the bottom left corner to "Paper".

The Voter Registration Card (Located in Provisional Supplies Envelope)

Use this card to register a voter so that they will be able to vote in future elections or to update a voter's name and/or address as indicated. Voters DO NOT fill out a Voter Registration Card to update their information if they are filling out a Provisional Ballot. Follow the regulations regarding address and name change. Voters will be given a pen to use to fill out the form.

Remember: If the voter has moved within the precinct, and their listing in the Poll Pad shows their OLD address, you will need to note that old address on line 12 of the Voter Registration Card. Also note that on line 14 the form must be signed by the voter, not the Precinct Election Official.

Place the completed Registration Card in the clear Completed Forms Envelope.

PROVISIONAL VOTER PRECINCT VERIFICATION FORM

Complete this form whenever a voter's name does not appear in the signature poll book or poll list, the voter is in the wrong precinct of the correct multiple-precinct polling place and the voter insists on casting a provisional ballot in the wrong precinct.

STEP 1 Find the voter's address in the Voting Location Guide.

STEP 2 Write the name or number of the voter's correct precinct below:

STEP 3 Write the name and address of the voter's correct polling place below, if different from where you are now:

STEP 4 Instruct the voter to go to his or her correct precinct to cast a provisional ballot.

I affirm under penalty of election falsification that I followed Steps 1 through 5 above but the voter refused to travel to the correct precinct and insists on voting a wrong-precinct provisional ballot in this precinct. I issued the provisional ballot contained in the envelope to which this verification is attached.

Signature of Precinct Election Official

Precinct Name/Number

Polling Place Name

Attach this form to the voter's provisional ballot envelope.

Failure by the Precinct Election Official to properly complete or attach this form will not result in the rejection of the voter's entire provisional ballot.

Voiding a Provisional Ballot/ Re-issuing a Provisional Ballot

If the voter requests a new ballot the ballot may be re-issued up to 3 times. A ballot may not be re-issued to a voter without the voter returning the ballot that needs to be voided. Place the voided ballot in the green "Soiled and Defaced" envelope after writing "Void" on the provisional ballot envelope. Give the voter a new provisional ballot. A voter may not be issued more than 3 ballots. Contact the Board of Elections for assistance or any questions.

Canceling or voiding a ballot must be done by a manager. Any voided and any re-issued ballots must be documented in the Incident Log by the manager. Place the Voided Ballot & Envelope in the Green Soiled and Defaced Envelope.

Ballot Accounting Chart

(see example pg 130)

The Ballot Accounting Chart should be filled out with the unused Provisional and Optional Paper ballot totals for each precinct yellow bag. At closing the chart is completed and returned to the yellow provisional ballot bag according to the that precinct. To complete the log:

NOTE: Do not open a sealed package if no ballots were issued.

4. The AVLMM will sign the bottom of the chart when completed.

Chain of Custody Tags - Seals

Put the completed Ballot Accounting chart in the proper yellow bag. Put the green Soiled and Defaced envelope and Provisional Log in any of the yellow provisional ballot bags. Fill out the Chain of Custody tags on each yellow provisional bag. Red "zipper" seals are used to seal the bag(s). Seal the slot in the Provisional Ballot Box with a red clip seal. The AVLMM will complete the tag with the seal number information and the AVLMM Closing report in the back of their binder.

Closing the Polls - Help Desk

The VLM will make an announcement at 7:30pm that the polls are closed and will issue a green “Authority to Vote” slip to all voters that are in line at that time. Once all of the voters have finished voting and left the Polling Location, the Manager will announce that all voters have left. You may begin the closing process.

When closing up your Help Desk be sure that all voted ballots have been placed in the sealed voted Ballot box.

Fill out the closing Ballot Accounting Chart with the unused ballot totals. Place in the provisional bag by precinct

Take the Yellow Precinct bags to the AVLM to be sealed for return to the BOE. The seal numbers will be recorded on the Chain of Custody tag attached to each bag. The seals will be located in the AVLM blue pouch.

Seal the bags with the red seals and fill out Chain of Custody tags

Before shutting down the Poll Pad the manager will need to access the Summary Report to fill out Ballot Card Inventory form. (see example pg 131)

Complete the Poll Pad Closing Report (see example pg 53), shut down the Poll Pad and pack it in the black case. The report printer and stand will be packed in the green case. Pack the ExpressVote printer in the printer bag. See the Help Desk booklet for more detailed instructions.

Assist the Voter Assistants with closing the ExpressVote Units as directed by the AVLM. Use the “Closing Procedures” to shut down equipment as directed. The DS200 Scanners are shut down and the reports run. The Memory stick is removed from the DS200 Scanner sealed in the clear pouch. The AVLM is the first to leave with the Memory sticks in the Memory Stick pouch, the green supply bag, the burgundy bag(s) containing all cast ballots, and Yellow Provisional bags, and the Provisional Ballot Box, accompanied by a member of the opposite political party.

The VLM will dismiss all other PEOs when the Polling Location is fully closed and all tasks are completed. See Closing details in back of manual.

Help Desk Ballot Storage

The AVL M will bring in both the Provisional Ballot bags, containing the unvoted ballots and the Provisional Ballot Box used for the voted provisional ballots.

The bags will be marked by precinct and contain the provisional and optional paper ballots for that precinct. The ballots should remain in the bag until one is needed for a voter. Remove the ballots in the consecutive order by referring to the ballot stub.

The Provisional Ballot bag(s) with the unvoted ballots will also be used to return the green Soiled and Defaced Envelope with all voided regular and provisional ballots and the Ballot Accounting Chart.

The voted (completed) Provisional ballots will be dropped in the sealed Provisional Ballot Box. All the voted provisional ballots for the polling location will be placed in this box. Large multi-precinct locations may have 2 boxes..

DO NOT break the seal on the zipper of the box. It should not be opened without contacting the BOE. Do break the seal on the flap at the top of the box to allow the insertion of the voted provisional ballots.

The AVL M will return all yellow Provisional Ballot bags to the drop off location as assigned.

Seal the voted Provisional Ballot box flap with the red seal at closing. Seal the other Provisional Ballot bag(s) with the red zipper seals. Seals are recorded on the Chain of Custody tags and the AVL M Closing Report in the AVL M binder (green paper).

Technicians

Overview

The role of the technicians is to maintain the proper operation of the Express Vote Units and DS200 Scanners that are set up for the election as well as, to assist the Polling Location in maintaining supplies and other duties as directed by the Board of Elections. Technicians know about the operation of voting equipment, but are not trained in voting procedures. They are there to reboot computers, clear jammed printers or other technology based issues. Voters, Observers, and members of the Media should all address their issues or questions to a member of the Polling Location Management Team.

Technicians must maintain communication with the Board of Elections' central operations. Text or call when each Polling Location is checked for ADA (American with Disabilities Act) compliance, and when there is a need for additional supplies. Continue to text or call throughout the day to update the war room as to your location at Polling Locations.

Contacting the Board of Elections

Calls can be made to the Board of Elections alerting that a particular Polling Location has an issue and that an issue has been resolved. The Board will issue cell phones to Technicians to use. **KEEP the Phone ON at ALL TIMES.**

Call with any issues or questions. Report anything that may impact the Election.

- if immediate personal contact is needed: 440-326-5953

Technicians need to contact the Board of Elections for each assigned Polling Location throughout the day and for ADA compliance and ballot stock:

- At 8 am on Election Day to confirm each site is ADA compliant.
- At 3 pm on Election Day to confirm that the Polling Location has at least 50% of their assigned Ballot Cards, Provisional and Optional Paper ballots still available for voters. Call if the Polling Location has used more than 50% of any of the ballots.

Prior to the Election - Technicians

- Technicians will receive their assigned Polling Locations
- Technician review the "Trouble Shooting" pages 103-109

- Technicians will be issued a mileage sheet to record travel on Election Day.
- Technicians should familiarize themselves with the supplies in their kits to ensure they have everything that may be needed and will be able to identify what is readily available for different Polling Location situations.

Kits include: red, blue and green seals, tags, flashlights, stickers, printer and scanner paper rolls, provisional envelopes and inserts, blank ballot cards, a flat key, a barrel key, and additional items.

Compliance with the American with Disabilities Act (ADA)

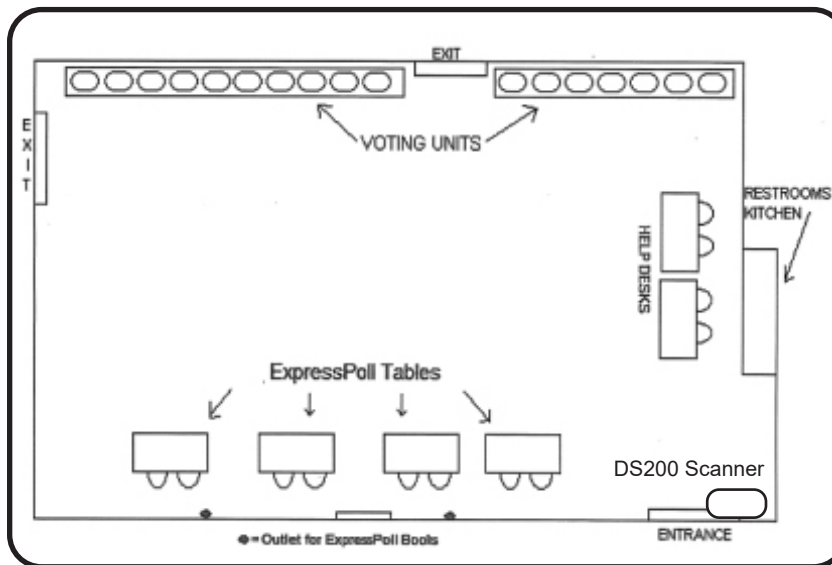

Every Polling Location must be in compliance with the ADA. This includes providing adequate parking, accessibility throughout the Polling Location, removal/identification of potential barriers, and Voting Units that can be used for the visually impaired.

Use the Accessible Parking Guide to identify the proper way to designate Accessible Parking Spaces at each Polling Location.

The Polling Location Set-up Sheet

The Polling Location Set-up sheet will detail how many tables each site should have, how those tables should be set up and a picture of how the Voting Units should be arranged. Set up each Polling Location as closely to the Polling Location Set-up sheet as possible.

The diagram is not to scale. Please note the photos for correct set up as well as the diagram. Polling Location Set-up Sheet Example:

Note: The diagram may not identify the exact number of units for the Polling Location. Set up and plug in all units delivered to the Polling Location.

Ensure all tables have the correct power cords and one chair each.

The ExpressVote Units, DS200 Scanner, ExpressVote Printers, the white “Important Voter Information” sign, the “Stop- Scan Ballot” sign & pole, the red Emergency Supply bag, and the blue & red totes will all be delivered for set up.

The blue tote contains supplies, including the extension cords, and power strips. Cords should be attached to the underside or the leg of the tables with the attached velcro. Extension cords may be needed for the ExpressVote Units also. The red tote is for election day and does not get opened.

IMPORTANT: The Technicians should review that the Polling Location has been set up correctly. Notify the Board if the Polling Location is not properly set up before making any changes. Ensure DS200 is set up correctly with arrows on the back lined up and the auxiliary slot in the front of the unit.

The Poll Pad Tables and Help Desk

All Polling Locations will have one blue tote that contains the extension/power cords to be set up for the equipment. Set up one table for each Poll Pad, based on the number of precincts at that Polling Location. You may need to locate tables and chairs at the Polling Location to set up. DO NOT open the red tote.

The Help Desk will have the green Poll Pad case and a black ExpressVote printer bag. Set up the back-up battery at the Help desk table. The Cradle Point will also be set up at the Help Desk. The Poll Pad printers and Cradle Point will be plugged into the battery in the "Battery + Surge" section.

Each Poll Pad table must have a multi plug outlet using the orange extension cord from the wall outlet and the cord cover.

Each Poll Pad stand will have a printer that must be set up on the table and plugged in. The team will unpack the Poll Pad cases that contain the stands/printers. The printer for the Help Desk will be in a separate black soft sided bag.

To Set Up:

1. Position the tables as indicated on the set up sheet. Run an orange extension cord, as indicated on the set up sheet, to each table.
 2. Unpack the printer, stand and cords. Place the blue stand with the printer on each

Election Equipment Custody

The Elections Equipment Custody Form will be at each Polling Location with the supplies that have been delivered. Team Leader will Sign this document stating that all Voting equipment was found in the Polling Location as indicated. If any items listed on the form are not in the Polling Location or the information is not accurate, the Team Leader will notify the Board of Elections immediately.

Sign the form as indicated then place it in the side pocket of an ExpressVote printer bag. Leave the bag on the Help Desk table.

The managers will complete the form on Election Day and place it in the Completed Forms Envelope.

NOTE: Technicians should remind the VLM to sign the form upon arrival at the Polling Location in the morning.

ISSUE/RETURN LOG

A BOE Election Unit agent or his/her designee (the "ISSUE/RETURN" agent), a County Council Employee and any other personnel using the "ISSUE/RETURN" system, are obligated to verify the quantity of the election equipment must appear in the "ISSUE/RETURN" column. In all instances, the person who signs the "ISSUE/RETURN" column is held responsible for missing, damaged or destroyed election equipment. In the case where missing or damaged equipment is reported, the personnel (polling location) must notify Election Day and not in advance (the sign requesting standby and enter "NO" and complete "NOTES"). The list and count who arrived at the polling station on Election Day are responsible for counts of the election equipment for that day only.

ISSUE/RETURN agent or personnel, (ISSUE/RETURN) and SIGNATURE (ISSUE/RETURN) on locations are FORBIDDEN TO SIGN. It is the responsibility of the VLM, who are required that they are authorized and empowered, individuals are not to sign. They are required to place and their own signature on the "EQUIPMENT" column. "COUNT" and "ISSUE/RETURN" column are not to be signed on a "VLM" inspection. Technicians/
Set Up

Setting Up ExpressVote Units

All Polling Locations will have multiple ExpressVote Units. Follow the Polling Location Set Up Diagram to position the units as indicated.

1. With the Voting Unit face down, pull out the two outer legs first.
2. Pull out the inner "U" legs. Ensure the hinges are locked in place to prevent collapsing.
3. Extend the legs fully and ensure the push pins are out. Flip the machines over using the handle at the top of the machine and the cross bar on the U.
4. Place the units at angles for privacy. Leave at least 36" between units to allow for room to maneuver. PEOs must be able to monitor activity around the units and to see if voters need any assistance.
5. Unwrap the electrical cord from the back and plug in the units. Up to 7 units can be daisy chained together. Use extension cords as needed. Make sure that electrical cords do not present a hazard. Cords should be taped to the floor, or as provided, use a rubber cord pad, to prevent tripping.
6. Twist off the green security tabs and remove from the doors. Dispose of properly.
7. Check the Auxillary Panel on the front of the unit to ensure the light indicating power is on. (see pg 62)

Setting Up DS200 Scanners

All Polling Locations will have one or two DS200 Scanners depending on the number of precincts at that location. The DS200 Scanner will be positioned near the exit door according to the set up diagram. Due to Covid-19, scanners will be spaced apart to accomodate social distancing.

1. Unpack the DS200 Scanner from the bag. Ensure that the seal on the bag has not been broken.

2. Unhinge the ballot box. Lift the top and remove the contents. Use the illustrated instructions on the top.

3. The ballot box consists of 4 parts: the top that connects to the scanner, the collapsible box, the partition, and the base.

4. Expand the box by following the arrows that indicate how the accordion walls expand. Place it into the base.

5. Lower the partition wall into the box by following the track that is labeled “Partition Insert Here”. The wall will divide the auxiliary bin from the regular ballot box section. **The auxiliary bin is the smaller front section of the box with the slot that is sealed with the metal plate.**

6. Lower the top of the box straight down matching the arrows on the top and the back of the box and the pins located on the upper edges of the box. If the top does not fit flat, remove and check to ensure the partition is in the correct track and slot in the base of the box. Secure the base using the hinges.

7. Place a green security seal into the opening on the front and back of the top of the ballot box.

Note: It is very important the ballot box is assembled correctly with the partition in the front and the lid placed in the proper direction.

8. Slide the DS200 Scanner on to the top of the box using the tracks located on opposite sides of the illustrated instruction page. Before sliding fully back you will need to plug in the barrel power cord.

Ensure the power cord is tucked into the lower portion of the ballot slot well. If the cord extends over the upper portion of the well it will cause ballot jams.

Incorrect-
cord is
blocking
upper well

Correct- the cord
is tucked into
the bottom well

9. Use the flat key to lock the top to the box by turning the metal locking bracket into place in the front and back of the box.

Note: You may need to push back on the DS200 Scanner to secure it firmly into place to lock the front bracket.

10. Plug in the power cord located on the back by the red arrows.

Note: If you need to unplug the DS200 Scanner unit from the box base unit you must pull back on the rectangular base of the cord at the arrow, where it plugs in to the unit to unlock it before pulling the cord fully from the unit.

Technicians-On Election Day

Arrive at the Polling Location as assigned if you have been given the keys to unlock the door at 5:30am. If you are not unlocking any Polling Locations then arrive at the location with the greatest number of ExpressVote units by 5:30am. Introduce yourself to the managers. Assist with opening if needed. Move on to the next Polling Location. If a location needs urgent help in getting opened, contact the BOE. immediately.

Check for compliance with ADA guidelines and smooth voter flow. Look for cord placement: power cords should not be in the path of the voter, outside there should be designated handicap parking, inside an orange cone should mark any areas that create a hazard like an open shelf or coat rack, and the location should have a handicap accessible entrance.

Throughout the day check in with the Polling Locations to assist as needed with any technical issues. Remain within 15 min of the locations, as applicable, to ensure quick access in the event of an immediate need.

At 8am confirm that your locations are **ADA compliant**. **Call the BOE** if there is an issue. **At 3pm, confirm that Polling Locations are adequately supplied with ballots. If 50% or more ballot cards, provisional or optional paper ballots are used call the BOE.**
- Call: 440-326-5953 to speak with the BOE Command Center

Ensure that the Polling Location has the supplies needed and that the equipment is working properly throughout the day. If there are any issues the Technician must report to the BOE and may be asked to come to the Board to pick up and deliver supplies or equipment to the Polling Location. Notify the Command Center if you have to give a location any of your supplies.

NOTE: There may be supplies in some of the rural locations for emergency use, check with the BOE to determine if supplies are available and before using any of the supplies. **See the Trouble Shooting information on pages 103-109**

Technicians Role in Closing the Polls

Go to your location with the greatest number of Voting Units or to the location that may need the most assistance with taking down the ExpressVote units. The first priority is to have all memory sticks, returned to the BOE or the designated drop off location as quickly as possible. Demonstrate the way to fold up the ExpressVote Units for PEOs and instruct as needed. Your job is to support them through the process. Make sure they have the bag for the DS200 Scanner and enough seals for the equipment.

Do not go to the designated drop off locations unless advised to do so by the BOE..

Return all supplies to the BOE on the Wednesday after the election between 8am-4:30pm along with the completed mileage sheet.

Poll Pad Tables and Help Desk - Trouble Shooting

The Poll Pads are connected to the printer and power thru the USB port on the right side. Call the BOE to confirm Poll Pad should be rebooted before proceeding.

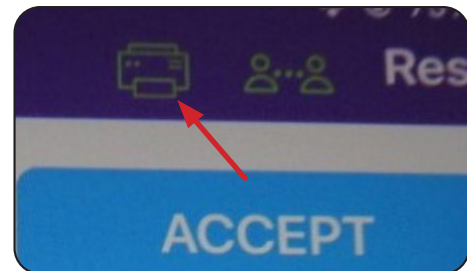

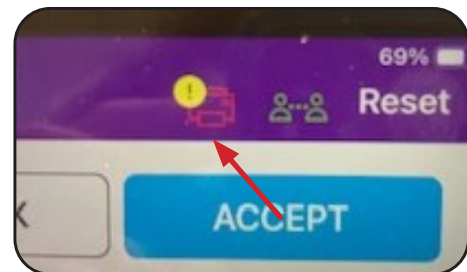

Poll Pad is Unresponsive

1. Unplug the unit. Wait 10 seconds and plug back in. If not responsive go to step 2.
2. Slide screen from bottom up to access the open applications and remove any unnecessary open windows.
3. If this does not work power off Poll Pad to reboot. After Poll Pad relaunches return to main screen.

Poll Pad not Printing Ballot Card

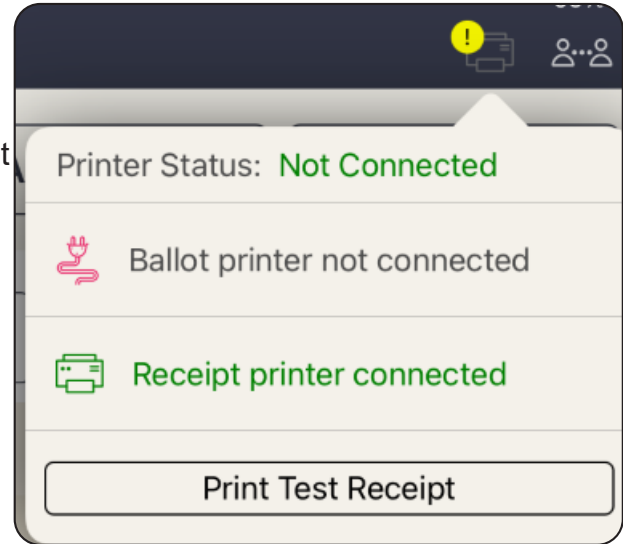

1. Check the printer icon in the upper right corner of the screen.
2. Red Printer display indicates that the printer is not connected. Check that the printer is powered on indicated by the blue light. If not hold button until powers on. Check power cords are plugged in fully.

3. If icon does not turn green unplug the Poll Pad and flip the cord over. Plug it back in after 10 sec. Re-check the printer symbol after 10 sec.

4. If pad is still not connecting to printer, call the BOE for instructions.
5. Tapping on the printer icon will indicate the Printer Status. The Ballot Printer/ Express Vote Printer will be connected to all Poll Pads. The Receipt/ Report Printer will only be connected to the Help Desk.

NOTE: When printing reports the tablet should be unplugged so it will be connected via Bluetooth.

Poll Pad Battery Warning

The Poll Pads are connected to the stand by a USB port on the right side. If not connected the screen will display a Warning message when the battery reaches 50% and again at 25%. Check the power cords and all connections.

Report Printer- Help Desk

To refill the paper in the report printer, remove it from the stand. Press the lever on the left side. There is a picture diagram on the inside cover. Feed the paper up and over the roll and out of the opening in the front. Additional paper is in the Red Tote.

Back up Battery

At the Help Desk table there will be a back-up battery where the Poll Pad, printer, and Cradlepoint will be plugged in. Do NOT relocate the battery or plug in any other items. This is to battery power the equipment during a electrical power outage.

Ensure the battery is on by pressing the ON button which will light up green when on. DO NOT plug in any extension cords to the battery. Plug in the Poll Pad and ExpressVote printer to the "Battery Surge" section.

If the battery is emitting a beep it needs to be charged. Call the BOE.

Ejecting a Ballot Card/ Jammed Ballot Card Removal

There are multiple ways to remove a ballot card jam- the front panel or side door can be opened using the barrel key to manually remove the card or power down and restart the ExpressVote. The manager should "void" the ballot and re-issue a new one for the voter. The manager will record this in the Incident Log. The voided ballot should be placed in the green "Soiled and Defaced" envelope.

1. Using the barrel key open the front panel. If the ballot is easily accessible, gently pull it out. Be careful not to rip the card and leave any pieces in the unit. Release the hinge on the right side by gently pulling it forward before lowering the door. Close and lock the door. If not, proceed to step 2.

2. Open the right side panel door. If the ballot can be removed through the side, gently pull it out. Close and lock the door. If not, proceed to step 3.

3. If it still cannot be removed open the side panel access door and turn the unit off.

4. The unit will prompt you to "Confirm Shut Down", select Shut Down. Allow the unit to fully power off then push the rocker switch to "on" to restart. The card should eject. Enter the Election Code and complete the reopening. A new blue security seal will be placed on the access door and the manager will record the new seal number in the Incident Log.

Trouble Shooting- ExpressVote

APPENDIX

Screen Calibration Issues

Problem: The voter pushes the oval for their selection on the screen and another oval is selected instead.

Solution: Clean the screen using ONLY isopropyl alcohol on a soft cloth and wipe clean. If this does not solve the problem contact the BOE.

Problem: An error message stating the barcode is unreadable appears when inserting the Ballot Card into the ExpressVote.

Solution: Technician or Board of Elections Official Only- Press in the lower left corner of the screen where the date and time are displayed to enter the System Supervisor mode. Enter the code as prompted. Press and hold the black diamond-shaped "Screen" button on the tactile keypad until the unit beeps and launches Scanner Calibration. Touch the green cross-hair target in each displayed location until procedure is complete.

Idle Error Message

Problem: If a vote session is inactive for 5 minutes the timeout alert appears and the session needs to be cancelled.

Solution: Touch "End Voting". Enter the Election Code then touch "Accept". The unit will display the Vote Session Cancelled screen; touch "Continue". Select the reason for cancellation, then touch "Continue". The ballot card should automatically eject and the welcome screen will appear. Give the ballot card to a manager to be voided. See the Voter Assistant section of the manual page 67.

ExpressVote Not Accepting the Ballot Card or Platen is Open

Problem: The ExpressVote is will not accept the Ballot Card Or the alert message information states "Platen is open/ disengaged".

Solution: Check to ensure the voter is inserting it with the notched corner on the right side. Re-feed the card into the slot as straight as possible. Open the front panel. Check if the card feeder (platen) has been dislodged. Push down using 2 fingers on the green stickers on the silver plate. Do not touch wires in lower section.

Solution: Next check the Ballot Card to ensure it is not damaged. If it is, notify a manager to have a new Ballot Card issued and "Void" the damaged card. Place it in the green "Soiled and Defaced" Ballot Envelope.

Solution: Look at the ballot card to see if the number under the bar code is all zeros or all nines. This indicates that the card is not valid. The card should be voided and the manager can re-issue a valid ballot card for the voter. Call the BOE for more information.

Changing Date & Time

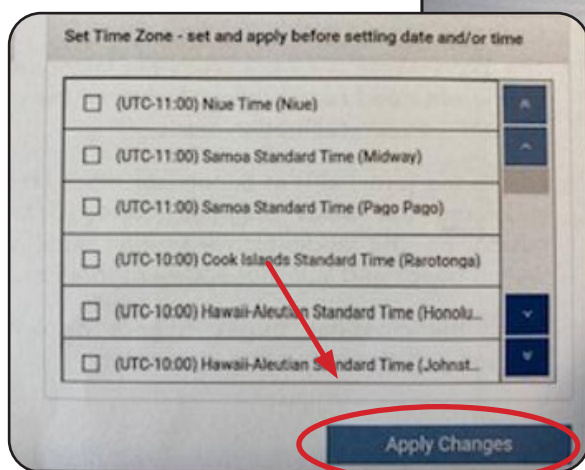

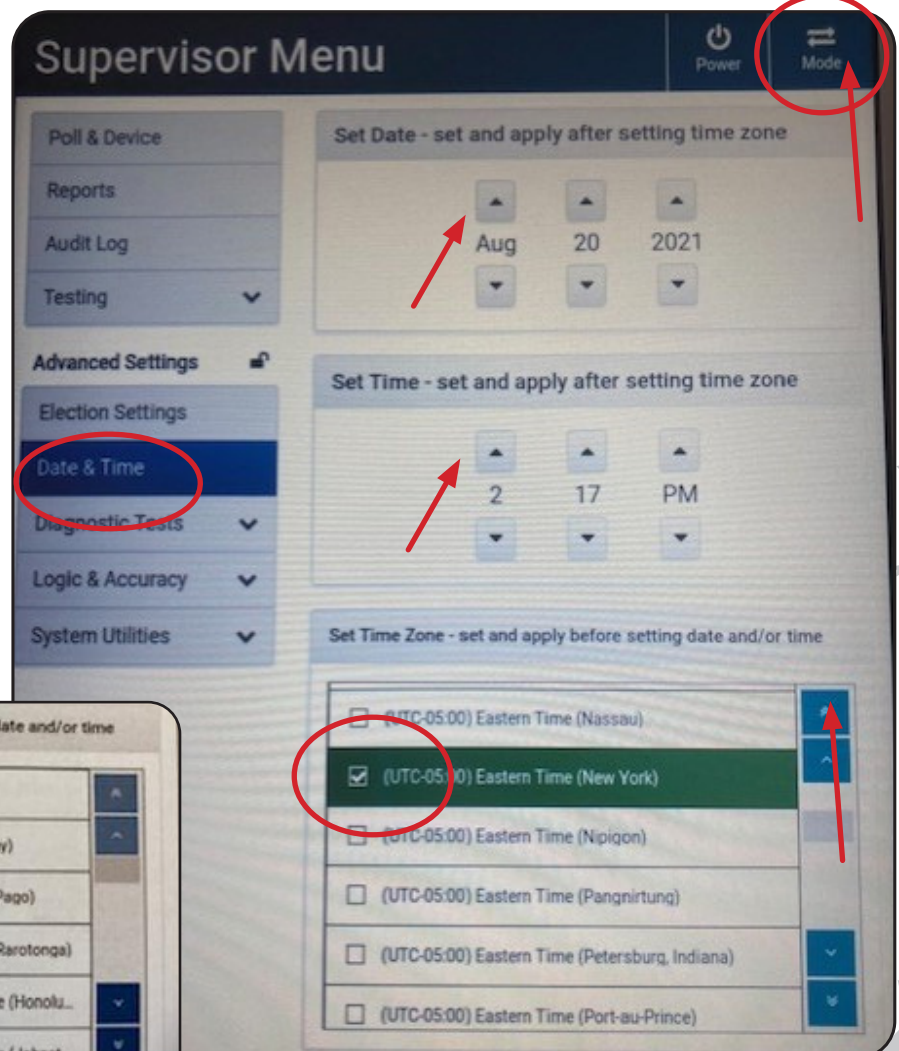

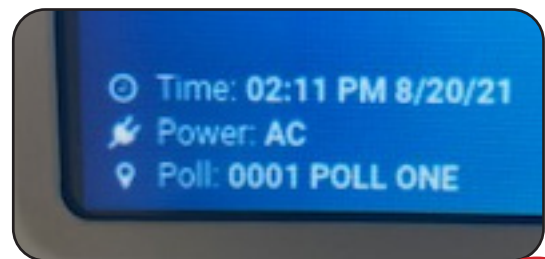

Problem: The date and/or time is not accurate.

Solution: Press the lower left corner of the "Welcome" screen to access the Supervisor Menu.

Select the Advanced Settings, enter the Administration code when prompted. Select Date & Time from the drop down list.

You must enter the Time Zone before changing the Date or Time. Use the side arrow to scroll down to "UTC 5:00 Eastern Time (New York)" tap on the box and the display will change to green. Use the arrow keys to change the date and time as needed. Tap on "Apply Changes" at the bottom of the Time Zone box.

Tap "Mode" in the upper corner to go back to the Welcome Screen.

Trouble Shooting- DS200 Scanner

Reports Not Visible on the Printer Paper

Problem: The reports are generating, but the paper is blank.

Solution: Remove the Seal on the Front Access Compartment and unlock the door. Push the small blue lever by the Power button to release the printer door. Remove the paper roll and reinsert it with the paper feeding under the roll coming out on the right side of the compartment. Lock and reseal the door. Reprint the report as needed.

Reprinting Reports

From the Open the Polls screen select "Report Options". Select "Zero Totals". Make sure the Report Format is set on "Public". Tab "Print Report".

Election Definition Not Found

Problem: The Election Definition media is not found when opening the DS200 Scanner. "Election Definition Not Found" message appears on the screen.

Solution: Contact the BOE. The Election Definition media stick will be located in the front Access Compartment. Do not remove it at any time unless instructed by the BOE. It may be loose and need to be re-inserted.

Ballot Not Feeding/ Ballot Card Jam DS200

Problem: The Ballot Card will not feed into the DS200 Scanner or goes in part way and is returned with a message "Missed Timing Mark Error". Or scanner alarms due to a ballot jam.

Solution: Using the flat key unlock the silver bar in the front of the DS200 box. Slide the scanner forward several inches. Without turning off or unplugging the scanner, go to the back of the DS200 Scanner to access the Ballot well and power cord. Check to see if the power cord is tucked into the lower part of the well and not blocking the upper portion of the well. If it is blocking

the well, tuck it down into the bottom without unplugging the unit and move it back into place. Re-lock the silver bar using the flat key.

If any ballot cards were lodged in the well they should be deposited into the ballot box, unless the DS200 screen has indicated that the card did not scan, then with a member of the opposite party, feed ballot back through the scanner and confirm it was accepted.

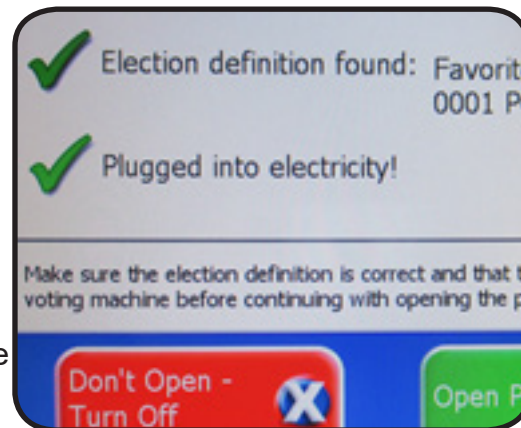

DS200 Not Plugged into Electricity

Problem: Icon in top right corner of screen shows the plug is not connected or the opening message does not indicate it is "Plugged into electricity!"

Solution: Check the 2 power supplies. One is the plug on the back of the box at the red arrows. Ensure that it is plugged into a live power source. The other is the plug located at the back of the DS200 Scanner. Using the flat key unlock the silver bar in the front of the DS200 box. Go to the back of the unit to confirm that it is plugged in. If not, look in the lower portion of the Ballot box well to find the power cord and plug it in. If it is plugged in, unplug the power cord from the outlet, then unplug the cord in the back of the scanner and plug it back in. Plug the power cord back in and see if this has resolved the issue. Slide the scanner back being careful to tuck the cord into the lower well on the ballot box and re-lock the silver bar.

Do not unplug or plug in the cord at the back of the scanner without unplugging the power cord from the outlet first, to avoid an electric arc.

Cleaning the Screen and Scanner

The screen and scanner inside the back of the unit can both be cleaned with isopropyl alcohol. DO NOT use Windex or other ammonia based products. The back of the DS200 Scanner behind the screen, holds the scanner screen. DO NOT open this compartment without directions from the BOE. Never touch the white circular pads on the top and bottom of the compartment.

Precinct Election Officials Ethics Statement

Appendix

Introduction: Precinct Election Officials hold positions of trust. The citizens of the State of Ohio expect a government that is open, fair, responsive, professional, and free of conflicts of interest. In order to promote public confidence in Ohio government and elections, all employees of the Secretary of State and members and employees of the boards of elections shall comply with Ohio ethics laws and the ethics policy of the Ohio Secretary of State.

R.C. 3501.15 prohibits Precinct Election Officials from serving in any precinct where the PEO is a candidate on the ballot, except for unopposed candidates for a political party county central committee.

Precinct Election Officials including Managers, Assistant Managers, Polling Location Table Workers, Technicians, Interpreters, or similar temporary election officials may not serve in any precinct in which a family member or business associate is a candidate for elected office, unless the candidate is unopposed, including no declared write-in candidates for the office.

Precinct Election Officials including Managers, Assistant Managers, Polling Location Table Workers, Technicians, Interpreters, or similar temporary election officials shall not wear or distribute shirts, buttons, stickers, or other campaign paraphernalia for or against any candidate or issue at the office of the Secretary of State, at the office of the board of elections, or at any polling place.

Precinct Election Officials including Managers, Assistant Managers, Polling Location Table Workers, Technicians, Interpreters, or similar temporary election officials shall not engage in any political activity while on Board of Elections time.

Precinct Election Officials including Managers, Assistant Managers, Polling Location Table Workers, Technicians, Interpreters, or similar temporary election officials should avoid actions and associations that create an appearance of impropriety, that undermine public confidence in Ohio elections officials, or that interfere with the performance of duties by Ohio elections officials.

Violations of this ethics policy by a Precinct Election Official may result in dismissal from service and no opportunities for further service as a Precinct Election Official.

For Precinct Election Officials, violations of this policy may be reported to the Director or Deputy Director of the Board of Elections. Reports also may be made anonymously by mailing a written statement in a sealed envelope to the board of elections to the attention of the Director or Deputy Director

Conclusion: All current and future employees of the boards of elections (including Precinct Election Officials including Managers, Assistant Managers, Polling Location Table Workers, Technicians, Interpreters, or similar temporary election workers appointed by the Board of Elections) shall sign a statement indicating their knowledge of and familiarity with Ohio ethics laws and the Secretary of State's ethics policy.
